March 30 – First Steps Basic Pistol \$145

This class is great for those who never have fired a handgun before, and for those that never took any formal training. We keep the class very small, so we can cover a lot of material. We enjoy a relaxed, non-intimidating atmosphere; but we do stress safety.

April 6-7 CCW / Defensive Handgun II \$295

This is the standard NRA Personal Protection Outside the Home course. It fulfills the CCW class requirements for a number of jurisdictions, including Solano, Napa, and City of Napa. Day #1 will be 9am-5pm in the classroom in American Canyon. Day #2 will 9am-5pm on nearby private property in American Canyon. The day on the range consists of working from a holster engaging threat targets, multiple threats, reloads, shooting while moving, shooting around barricades, and much more. It's an intense class. While physically easy, it will challenge the limits of your mental strength and your shooting abilities.

April 28 Tactical Rifle \$195

Much like Defensive Handgun II, we engage threats stationary and on the move, as well as work on multiple threats, turning responses, use of cover, shooting from different ready positions, and more.

May 11 Range Practice / CCW Renewal \$195

Perfect for those with experience drawing and shooting from a holster. It much like Defensive Handgun II, expect it's instructed and free practice. We will also be accommodating those that need renewals.

May 12 Women's Only Pistol / Rifle \$195

This is a perfect gift for Mother's Day! This is a very small class with personalized instruction. Our coaching will adapt to your level. Rifles are welcome as well. Rapid fire, but no handguns in holsters. This will be run as a cold range meaning you unload when you leave the line. Perfect for beginners to intermediate shooters.

May 25-26 Home Defense Skills & Scenarios (live fire & force on force) \$495

This class is designed for people who are looking to improve their practical shooting ability with a handgun, and who are new to force on force training. Day 1 will consist of live-fire training on a 180 degree range where you will work on fundamentals, and will practice shooting at multiple targets from behind cover positions and during simulated room entries. Day 2 will be run in our nearby shoothouse and will place you in real-world scenarios while armed with a UTM converted Glock 17 handgun.
