HILLIARD GRINDING TECHNOLOGY PRESENTS

Grinding Training Series

Presented by: Dr. George Petrosky, Ph.D.

RIT | Rochester Institute of Technology

MARK THE DATE: JUNE 2026

Rochester, NY
June 10th and 11th

Event cost: \$1,500.00

2 Free seats with Machine purchase from HGT.

Elevate Your Grinding Expertise

Enhance your grinding skills with our comprehensive training program led by Dr. George Petrosky, a renowned expert in grinding technology. Whether you're looking to master the fundamentals, refine your techniques, or explore advanced best practices, this training will empower you to:

- Gain in-depth insights into grinding processes and technology.
- Apply practical knowledge to achieve superior results.
- Become a recognized expert in precision grinding across diverse applications.

Event Highlights

- Two Full Days of Training: Dive deep into the theory and application of grinding.
- Exclusive Hardback Copy of "Grinding Process Solutions": Your guide to mastering grinding processes.
- HGT-Sponsored Dinner & Networking Event: Connect with industry professionals.

About "Grinding Process Solutions"

Dr. George Petrosky's book, Grinding Process Solutions, is both a deep dive into grinding theory and a practical guide to process engineering. This invaluable resource will enable you to systematically improve any grinding process, providing knowledge and tools that can be applied on any machine.

For more information visit:
www.GrindingProcessSolutions.com

Key Features:

- Learn about process optimization and the statistical tools used in grinding applications.
- Explore the fundamental physics that underpin production grinding.
- Understand how grinding machines function and evaluate their performance.
- Delve into the principles of grinding processes and technology.
- Analyze the input/output relationships of grinding.
- Apply a structured problem-solving approach to enhance grinding outcomes.

Don't miss this opportunity to transform your grinding skills and gain insights that deliver real-world impact. Secure your spot today!
