

CONDITIONS OF SALE FOR 3291 TURNPIKE ROAD, ELIZABETHTOWN, PA
17022 - APRIL 4, 2024 AT 6:00 PM

The conditions of the present public sale are as follows:

1. The highest bidder shall be the purchaser upon the property being struck off to that bidder (hammer price) plus the three (3%) purchaser premium listed in paragraph 2 shall be added to the hammer price and together shall be the total purchase price. Immediately thereafter such bidder must sign Purchaser's Acceptance which is part of these conditions. Further, Purchaser shall immediately pay down 10% of the purchase price as security for the performance of this agreement, which 10% shall be paid over to Sellers and not held in an escrow account. If any dispute arises among the bidders, such dispute shall be raised immediately; and the property shall immediately be put up for renewal of bidding. The right is reserved to reject any and all bids. The real estate being sold is more fully described in Exhibit "A" attached hereto and has a mailing address of: 3291 Turnpike Road, Elizabethtown, PA 17022. Bidders may bid online so long as registered with auctioneer.

2. A three (3%) percent Purchaser premium will be added to the "hammer price" (the amount of the highest accepted bid) and will be paid by Purchaser, in addition to the hammer price and the hammer price plus the 3% Purchaser's premium shall be the total purchase price.

3. Purchaser shall pay the balance of the purchase money on or before 4:00 p.m. on May 20, 2024. Time is of the essence. Unless the settlement date is extended by written consent of Seller, failure to settle on or before settlement date shall constitute default without further notice of any kind. Upon said payment, Seller will convey to Purchaser, by deed prepared at Purchaser's expense, fee simple title to the premises, good and marketable, free and clear of all liens and encumbrances not noted on these Conditions, but subject to any existing wall rights, easements, building or use restrictions, encroachments of cornices, trim, spouting on either side of boundary lines, encroachments of any kind within the rights-of-way of public streets or roads, rights of utilities, zoning or land subdivision or development regulations, other municipal ordinances, and present or future rights of public authorities with respect to public highways.

4. Seller represents (i) that there are no pending and

unsettled eminent domain proceedings, no recent appropriations by the filing of the State Highway plans in the Recorder's Office, and no uncomplained-with orders from any governmental authority to do work or correct conditions, affecting this property of which Seller has knowledge; and (ii) that no part of the property, except any part within utility reserve strips in developments or within legal limits of highways, is, or at settlement will be, subject to any currently-used or enforceable easement for any underground electric or telephone cable or sewer, gas or water pipe serving other than this property, or public storm sewer, or any other easement which is not apparent upon reasonable physical inspection, except as noted in these Conditions or in the chain of title.

5. Any survey desired by Purchaser or required by Purchaser's lender shall be at the sole expense of Purchaser, for whatever reason desired or needed.

6. Zoning for premises is: Rural District in Conoy Township.

7. Possession shall be given to Purchaser at Settlement.

8. All buildings, improvements, rights, liberties and privileges thereto belonging are included in the sale. No personal property is included with this real estate.

9. At Settlement, the property and all of its fixtures shall be in substantially the same condition as at present, except for (a) ordinary reasonable wear and tear, (b) damage of any kind for which full or partial recovery may be had under the Seller's or Purchaser's insurance, (c) damage which occurs after possession has been given to the Purchaser, or (d) any taking by eminent domain.

10. Formal tender of deed and purchase money is waived. Settlement shall be made at the office of Nikolaus & Hohenadel, LLP, 222 South Market Street, Suite 201, Elizabethtown, PA 17022.

11. Seller agrees to continue in force the present fire insurance until delivery of deed or possession to Purchaser, whichever shall first happen; and any money collected or to be collected on account of loss or damage occurring after this date and before delivery of deed or possession shall be credited upon the purchase money. If the amount, type, or coverage of insurance is not satisfactory to Purchaser, Purchaser may increase the amount and/or purchase other policies and/or coverage at Purchaser's own

expense insuring Purchaser's interest therein. Purchaser assumes risk of ordinary wear and tear of any item covered by Seller's or Purchaser's insurance, or of anything which occurs after Purchaser has been given the right of possession.

12. Real estate taxes shall be apportioned to date of Settlement or prior receipt of possession by Purchaser on a fiscal year basis.

13. Seller shall pay acknowledgments to the deed.

14. Buyer shall pay all real estate transfer taxes.

15. There is no community sewage system available for this tract. A permit for a new, expanded or changed individual sewage system will have to be obtained pursuant to Section 7 of Pennsylvania Sewage Facilities Act (Act No. 537 of Jan. 24, 1966, P.L. (1965) 1535; 35 P.S. 750.7). Purchaser should contact the Township of Conoy to determine the procedure and requirements for obtaining a permit for any additional or substitute individual sewage system.

16. This property is served by a well and septic system. No representation is made a) as to the quantity, potability or sufficiency of the supply of water or b) the adequacy of the septic system for any particular purchaser.

17. CONDITIONS OF PROPERTY AND FIXTURES; RESPA DISCLOSURES: At settlement, the property and all its appurtenances and fixtures shall be in substantially the same condition as at present, except for ordinary reasonable wear and tear, damage of any kind which full or partial recovery may be had under the Seller's or Purchaser's insurance, damage which occurs after possession has been given to the Purchaser, damages arising from any condition of the Premises on the date of the execution hereof, or any taking by eminent domain.

The Seller has not conducted any investigation or inspection of the Premises in order to ascertain the presence of any potential problem or defect. By execution of the Purchaser's Agreement, the Purchaser acknowledges that he has had a full and complete opportunity to inspect the Premises, and that the Premises is being sold unto Purchaser "AS IS" with no representation, guarantee or warranty regarding the condition of the premises, including, but not limited to, the electrical system, heating system, plumbing, water system, sewage disposal system, or any

portion thereof. No representation is made or warranty given regarding the presence or absence of any hazardous or toxic substances, materials or wastes, or that the Premises is in compliance with any federal, state or local environmental laws or regulations. In the event any repair or improvement to or any inspection or testing of the Premises is desired by the Purchaser or by any lender proposing to provide Purchaser with financing for the purchase of the premises, the costs of any such repair, improvement, inspection, or testing shall be payable solely by the Purchaser. The Purchaser's Agreement shall not be conditioned upon any such repair, improvement, inspection, or testing, or upon any specific results obtained from such inspection or testing.

18. Title to the premises is marketable and subject to matters, other than liens and encumbrances, of record in the Lancaster County Courthouse.

19. Any "Disbursement" or similar fees purported to be charged by Purchaser's title company or attorney against Seller, for services which Seller has not specifically engaged, shall be paid by Purchaser.

20. a. Should Purchaser fail to comply with these Conditions, Seller shall, in addition to other remedies provided by law, have the option either (1) to retain Purchaser's down-payment as liquidated damages regardless of whether, or on what terms, the premises are resold or (2) to resell the premises at public or private sale, with or without notice to Purchaser, and to retain any advance in price or to hold Purchaser liable for any loss resulting from such sale, meanwhile holding the down payment as security for or toward payment of any such loss.

b. This Agreement is not assignable by Purchaser without Seller(s) prior written consent. Any assignment may result in additional transfer tax, which would be the sole responsibility of Buyer and Assignee.

SELLER(S)

PURCHASER'S ACCEPTANCE

The undersigned Purchaser, having agreed to purchase the real estate mentioned in the foregoing Conditions subject to said Conditions, executes the Purchaser's Acceptance and agrees that it shall be binding upon Purchaser/s and the heirs, legal representatives, successors and assigns of Purchaser.

Should possession of the premises be acquired by Purchaser before payment of the purchase money, and should Purchaser fail to make payments when due; Purchaser authorizes the Prothonotary of any Court of Record to appear for Purchaser in any Court of Record and confess judgment in an amicable action of ejectment against Purchaser in favor of Seller or the latter's assigns for the possession of said premises and directs the issuing of a writ of possession with writ of execution for costs, waiving all irregularities, without notice, without asking leave of Court, waiving present or future exemption laws and waiving the right of appeal.

The sum Purchaser has agreed to pay is _____

SELLER'S PROPERTY DISCLOSURE STATEMENT

SPD

This form recommended and approved for, but not restricted to use by, the members of the Pennsylvania Association of Realtors® (PAR).

1 **PROPERTY 3291 Turnpike Road, Elizabethtown, PA 17022**

2 **SELLER Christian G. Becker, Arlene E. Becker**

3 **INFORMATION REGARDING THE REAL ESTATE SELLER DISCLOSURE LAW**

4 The Real Estate Seller Disclosure Law (68 P.S. §7301, et seq.) requires that before an agreement of sale is signed, the seller in a residential
5 real estate transfer must disclose all known **material defects** about the property being sold that are not readily observable. A **material defect**
6 is a problem with a residential real property or any portion of it that would have a significant adverse impact on the value of the property or
7 that involves an unreasonable risk to people on the property. The fact that a structural element, system or subsystem is at or beyond the end
8 of its normal useful life is not by itself a material defect.

9 This property disclosure statement ("Statement") includes disclosures beyond the basic requirements of the Law and is designed to assist
10 Seller in complying with disclosure requirements and to assist Buyer in evaluating the property being considered. Sellers who wish to see
11 or use the basic disclosure form can find the form on the website of the Pennsylvania State Real Estate Commission. Neither this Statement
12 nor the basic disclosure form limits Seller's obligation to disclose a material defect.

13 This Statement discloses Seller's knowledge of the condition of the Property as of the date signed by Seller and is not a substitute for any
14 inspections or warranties that Buyer may wish to obtain. This Statement is not a warranty of any kind by Seller or a warranty or rep-
15 resentation by any listing real estate broker, any selling real estate broker, or their licensees. Buyer is encouraged to address concerns
16 about the condition of the Property that may not be included in this Statement.

17 The Law provides exceptions (listed below) where a property disclosure statement does not have to be completed. All other sellers
18 are obligated to complete a property disclosure statement, even if they do not occupy or have never occupied the Property.

- 19 1. Transfers by a fiduciary during the administration of a decedent estate, guardianship, conservatorship or trust.
- 20 2. Transfers as a result of a court order.
- 21 3. Transfers to a mortgage lender that results from a buyer's default and subsequent foreclosure sales that result from default.
- 22 4. Transfers from a co-owner to one or more other co-owners.
- 23 5. Transfers made to a spouse or direct descendant.
- 24 6. Transfers between spouses as a result of divorce, legal separation or property settlement.
- 25 7. Transfers by a corporation, partnership or other association to its shareholders, partners or other equity owners as part of a plan of
26 liquidation.
- 27 8. Transfers of a property to be demolished or converted to non-residential use.
- 28 9. Transfers of unimproved real property.
- 29 10. Transfers of new construction that has never been occupied and:
 - 30 a. The buyer has received a one-year warranty covering the construction;
 - 31 b. The building has been inspected for compliance with the applicable building code or, if none, a nationally recognized model
32 building code; and
 - 33 c. A certificate of occupancy or a certificate of code compliance has been issued for the dwelling.

34 **COMMON LAW DUTY TO DISCLOSE**

35 Although the provisions of the Real Estate Seller Disclosure Law exclude some transfers from the requirement of completing a disclo-
36 sure statement, the Law does not excuse the seller's common law duty to disclose any known material defect(s) of the Property in order
37 to avoid fraud, misrepresentation or deceit in the transaction. **This duty continues until the date of settlement.**

38 **EXECUTOR, ADMINISTRATOR, TRUSTEE SIGNATURE BLOCK**

39 According to the provisions of the Real Estate Seller Disclosure Law, the undersigned executor, administrator or trustee is not required
40 to fill out a Seller's Property Disclosure Statement. **The executor, administrator or trustee, must, however, disclose any known**
41 **material defect(s) of the Property.**

	X		

176 *Note to Buyer: The PA Construction Code Act, 35 P.S. §7210 et seq. (effective 2004), and local codes establish standards for building and*
 177 *altering properties. Buyers should check with the municipality to determine if permits and/or approvals were necessary for disclosed work*
 178 *and if so, whether they were obtained. Where required permits were not obtained, the municipality might require the current owner to up-*
 179 *grade or remove changes made by the prior owners. Buyers can have the Property inspected by an expert in codes compliance to determine*
 180 *if issues exist. Expanded title insurance policies may be available for Buyers to cover the risk of work done to the Property by previous*
 181 *owners without a permit or approval.*

182 *Note to Buyer: According to the PA Stormwater Management Act, each municipality must enact a Storm Water Management Plan for*
 183 *drainage control and flood reduction. The municipality where the Property is located may impose restrictions on impervious or semi-per-*
 184 *vicious surfaces added to the Property. Buyers should contact the local office charged with overseeing the Stormwater Management Plan*
 185 *to determine if the prior addition of impervious or semi-pervious areas, such as walkways, decks, and swimming pools, might affect your*
 186 *ability to make future changes.*

187 **9. WATER SUPPLY**

188 (A) Source. Is the source of your drinking water (check all that apply):

- 190 2. A well on the Property
- 191 3. Community water
- 192 4. A holding tank
- 193 5. A cistern
- 194 6. A spring
- 195 7. Other _____
- 196 8. If no water service, explain: _____

197 (B) General

- 198 1. When was the water supply last tested? _____
- 199 Test results: _____
- 200 2. Is the water system shared?
- 201 If "yes," is there a written agreement?
- 202 4. Do you have a softener, filter or other conditioning system?
- 203 5. Is the softener, filter or other treatment system leased? From whom? _____
- 204 6. If your drinking water source is not public, is the pumping system in working order? If "no,"
- 205 explain: _____

206 (C) Bypass Valve (for properties with multiple sources of water)

- 207 1. Does your water source have a bypass valve?
- 208 2. If "yes," is the bypass valve working?

209 (D) Well

- 210 1. Has your well ever run dry?
- 211 2. Depth of well _____
- 212 3. Gallons per minute: _____, measured on (date) _____
- 213 4. Is there a well that is used for something other than the primary source of drinking water?
- 214 If "yes," explain _____
- 215 5. If there is an unused well, is it capped?

	Yes	No	Unk	N/A

(C) Status

- 348 1. Are there any areas of the house that are not heated?
- 349 If "yes," explain: _____
- 350 2. How many heating zones are in the Property? one (1)
- 351 3. When was each heating system(s) or zone installed? new boiler in 2018
- 352 4. When was the heating system(s) last serviced? _____
- 353 5. Is there an additional and/or backup heating system? If "yes," explain: _____
- 354 _____
- 355 6. Is any part of the heating system subject to a lease, financing or other agreement?
- 356 If "yes," explain: _____

(D) Fireplaces and Chimneys

- 358 1. Are there any fireplaces? How many? _____
- 359 2. Are all fireplaces working?
- 360 3. Fireplace types (wood, gas, electric, etc.): _____
- 361 4. Was the fireplace(s) installed by a professional contractor or manufacturer's representative?
- 362 5. Are there any chimneys (from a fireplace, water heater or any other heating system)?
- 363 6. How many chimneys? one (1)
- 364 7. When were they last cleaned? _____
- 365 8. Are the chimneys working? If "no," explain: _____

(E) Fuel Tanks

- 367 1. Are you aware of any heating fuel tank(s) on the Property?
- 368 2. Location(s), including underground tank(s): Basement
- 369 3. If you do not own the tank(s), explain: _____

(F) Are you aware of any problems or repairs needed regarding any item in Section 13? If "yes," explain: _____

14. AIR CONDITIONING SYSTEM

(A) Type(s). Is the air conditioning (check all that apply):

- 374 1. Central air
- 375 a. How many air conditioning zones are in the Property? _____
- 376 b. When was each system or zone installed? _____
- 377 c. When was each system last serviced? _____
- 378 2. Wall units
- 379 How many and the location? _____
- 380 3. Window units
- 381 How many? _____
- 382 4. Wall-mounted split units
- 383 How many and the location? _____
- 384 5. Other _____
- 385 6. None _____

(B) Are there any areas of the house that are not air conditioned?

If "yes," explain: The house has no air conditioning

(C) Are you aware of any problems with any item in Section 14? If "yes," explain: _____

390 Seller's Initials CBB/AEB Date 3/26/24 SPD Page 7 of 11 Buyer's Initials _____ / _____ Date _____

 456 **remediation efforts, the name of the person or company who did the repairs and the date the work was done:** _____
 457

458 **19. LAND/SOILS**

459 **(A) Property**

- 460 1. Are you aware of any fill or expansive soil on the Property?
- 461 2. Are you aware of any sliding, settling, earth movement, upheaval, subsidence, sinkholes or earth
- 462 stability problems that have occurred on or affect the Property?
- 463 3. Are you aware of sewage sludge (other than commercially available fertilizer products) being
- 464 spread on the Property?
- 465 4. Have you received written notice of sewage sludge being spread on an adjacent property?
- 466 5. Are you aware of any existing, past or proposed mining, strip-mining, or any other excavations on
- 467 the Property?

	Yes	No	Unk	N/A
A1		X		
A2		X		
A3		X		
A4		X		
A5		X		

468 *Note to Buyer: The Property may be subject to mine subsidence damage. Maps of the counties and mines where mine subsidence*
 469 *damage may occur and further information on mine subsidence insurance are available through Department of Environmental*
 470 *Protection Mine Subsidence Insurance Fund, (800) 922-1678 or ra-epmsi@pa.gov.*

471 **(B) Preferential Assessment and Development Rights**

472 Is the Property, or a portion of it, preferentially assessed for tax purposes, or subject to limited devel-
 473 opment rights under the:

- 474 1. Farmland and Forest Land Assessment Act - 72 P.S. §5490.1, et seq. (Clean and Green Program)
- 475 2. Open Space Act - 16 P.S. §11941, et seq.
- 476 3. Agricultural Area Security Law - 3 P.S. §901, et seq. (Development Rights)
- 477 4. Any other law/program: _____

	Yes	No	Unk	N/A
B1		X		
B2		X		
B3		X		
B4		X		

478 *Note to Buyer: Pennsylvania has enacted the Right to Farm Act (3 P.S. § 951-957) in an effort to limit the circumstances under*
 479 *which agricultural operations may be subject to nuisance suits or ordinances. Buyers are encouraged to investigate whether any*
 480 *agricultural operations covered by the Act operate in the vicinity of the Property.*

481 **(C) Property Rights**

482 Are you aware of the transfer, sale and/or lease of any of the following property rights (by you or a
 483 previous owner of the Property):

- 484 1. Timber
- 485 2. Coal
- 486 3. Oil
- 487 4. Natural gas
- 488 5. Mineral or other rights (such as farming rights, hunting rights, quarrying rights) Explain:
 489 _____

	Yes	No	Unk	N/A
C1		X		
C2		X		
C3		X		
C4		X		
C5		X		

490 *Note to Buyer: Before entering into an agreement of sale, Buyer can investigate the status of these rights by, among other means,*
 491 *engaging legal counsel, obtaining a title examination of unlimited years and searching the official records in the county Office of*
 492 *the Recorder of Deeds, and elsewhere. Buyer is also advised to investigate the terms of any existing leases, as Buyer may be subject*
 493 *to terms of those leases.*

494 **Explain any "yes" answers in Section 19:** _____
 495

496 **20. FLOODING, DRAINAGE AND BOUNDARIES**

497 **(A) Flooding/Drainage**

- 498 1. Is any part of this Property located in a wetlands area?
- 499 2. Is the Property, or any part of it, designated a Special Flood Hazard Area (SFHA)?
- 500 3. Do you maintain flood insurance on this Property?
- 501 4. Are you aware of any past or present drainage or flooding problems affecting the Property?
- 502 5. Are you aware of any drainage or flooding mitigation on the Property?
- 503 6. Are you aware of the presence on the Property of any man-made feature that temporarily or per-
 504 manently conveys or manages storm water, including any basin, pond, ditch, drain, swale, culvert,
 505 pipe or other feature?
- 506 7. If "yes," are you responsible for maintaining or repairing that feature which conveys or manages
 507 storm water for the Property?

573 (B) Financial

- 574 1. Are you aware of any public improvement, condominium or homeowner association assessments
 575 against the Property that remain unpaid or of any violations of zoning, housing, building, safety or
 576 fire ordinances or other use restriction ordinances that remain uncorrected?
- 577 2. Are you aware of any mortgages, judgments, encumbrances, liens, overdue payments on a support
 578 obligation, or other debts against this Property or Seller that cannot be satisfied by the proceeds of
 579 this sale?
- 580 3. Are you aware of any insurance claims filed relating to the Property during your ownership?

581 (C) Legal

- 582 1. Are you aware of any violations of federal, state, or local laws or regulations relating to this Prop-
 583 erty?
- 584 2. Are you aware of any existing or threatened legal action affecting the Property?

585 (D) Additional Material Defects

- 586 1. Are you aware of any material defects to the Property, dwelling, or fixtures which are not dis-
 587 closed elsewhere on this form?

588 *Note to Buyer: A material defect is a problem with a residential real property or any portion of it that would have a significant*
 589 *adverse impact on the value of the property or that involves an unreasonable risk to people on the property. The fact that a*
 590 *structural element, system or subsystem is at or beyond the end of the normal useful life of such a structural element, system or*
 591 *subsystem is not by itself a material defect.*

- 592 2. After completing this form, if Seller becomes aware of additional information about the Property, including through
 593 inspection reports from a buyer, the Seller must update the Seller's Property Disclosure Statement and/or attach the
 594 inspection report(s). These inspection reports are for informational purposes only.

595 Explain any "yes" answers in Section 22: _____
 596 _____

597 23. ATTACHMENTS

RESIDENTIAL LEAD-BASED PAINT HAZARDS DISCLOSURE FORM

LPD

This form recommended and approved for, but not restricted to use by, the members of the Pennsylvania Association of Realtors® (PAR)

THIS FORM MUST BE COMPLETED FOR ANY PROPERTY BUILT PRIOR TO 1978

PROPERTY 3941 TURNPIKE ROAD ELIZABETHTOWN PA 17022
SELLER CHRISTIAN G. BECKER and Arlene E. BECKER

LEAD WARNING STATEMENT

Every purchaser of any interest in residential real property on which a residential dwelling was built prior to 1978 is notified that such property may present exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular risk to pregnant women. The Seller of any interest in residential real property is required to provide the Buyer with any information on lead-based paint hazards from risk assessments or inspections in the Seller's possession and notify the Buyer of any known lead-based paint hazards. A risk assessment or inspection for possible lead-based paint hazards is recommended prior to purchase.

SELLER'S DISCLOSURE

CB/AB Seller has no knowledge of the presence of lead-based paint and/or lead-based paint hazards in or about the Property.
Seller has knowledge of the presence of lead-based paint and/or lead-based paint hazards in or about the Property. (Provide the basis for determining that lead-based paint and/or hazards exist, the location(s), the condition of the painted surfaces, and other available information concerning Seller's knowledge of the presence of lead-based paint and/or lead-based paint hazards.)

SELLER'S RECORDS/REPORTS

CB/AB Seller has no records or reports pertaining to lead-based paint and/or lead-based paint hazards in or about the Property.
Seller has provided Buyer with all available records and reports regarding lead-based paint and/or lead-based paint hazards in or about the Property. (List documents):

Seller certifies that to the best of Seller's knowledge the above statements are true and accurate.

SELLER Christian G. Becker DATE 3/26/24
SELLER Arlene E. Becker DATE 3/26/24
SELLER DATE

BUYER

DATE OF AGREEMENT

BUYER'S ACKNOWLEDGMENT

Buyer has received the pamphlet Protect Your Family from Lead in Your Home and has read the Lead Warning Statement.
Buyer has reviewed Seller's disclosure of known lead-based paint and/or lead-based paint hazards and has received the records and reports regarding lead-based paint and/or lead-based paint hazards identified above.
Buyer has (initial one):
received a 10-day opportunity (or mutually agreed upon period) to conduct a risk assessment or inspection for the presence of lead-based paint and/or lead-based paint hazards; or
waived the opportunity to conduct a risk assessment or inspection for the presence of lead-based paint and/or lead-based paint hazards.

Buyer certifies that to the best of Buyer's knowledge the statements contained in Buyer's acknowledgement are true and accurate.

BUYER DATE
BUYER DATE
BUYER DATE

AGENT ACKNOWLEDGEMENT AND CERTIFICATION

Agent/Licensee represents that Agent has informed Seller of Seller's obligations under the Residential Lead-Based-Paint Hazard Reduction Act, 42 U.S.C. §4852(d), and is aware of Agent's responsibility to ensure compliance.

The following have reviewed the information above and certify that the Agent statements are true to the best of their knowledge and belief.
Seller Agent and Buyer Agent must both sign this form.

Protect Your Family From Lead in Your Home

March 2021

Are You Planning to Buy or Rent a Home Built Before 1978?

Did you know that many homes built before 1978 have lead-based paint? Lead from paint, chips, and dust can pose serious health hazards.

Read this entire brochure to learn:

- How lead gets into the body
- How lead affects health
- What you can do to protect your family
- Where to go for more information

Before renting or buying a pre-1978 home or apartment, federal law requires:

- Sellers must disclose known information on lead-based paint or lead-based paint hazards before selling a house.
- Real estate sales contracts must include a specific warning statement about lead-based paint. Buyers have up to 10 days to check for lead.
- Landlords must disclose known information on lead-based paint or lead-based paint hazards before leases take effect. Leases must include a specific warning statement about lead-based paint.

If undertaking renovations, repairs, or painting (RRP) projects in your pre-1978 home or apartment:

- Read EPA's pamphlet, *The Lead-Safe Certified Guide to Renovate Right*, to learn about the lead-safe work practices that contractors are required to follow when working in your home (see page 12).

Simple Steps to Protect Your Family from Lead Hazards

If you think your home has lead-based paint:

- Don't try to remove lead-based paint yourself.
- Always keep painted surfaces in good condition to minimize deterioration.
- Get your home checked for lead hazards. Find a certified inspector or risk assessor at epa.gov/lead.
- Talk to your landlord about fixing surfaces with peeling or chipping paint.
- Regularly clean floors, window sills, and other surfaces.
- Take precautions to avoid exposure to lead dust when remodeling.
- When renovating, repairing, or painting, hire only EPA- or state-approved Lead-Safe certified renovation firms.
- Before buying, renting, or renovating your home, have it checked for lead-based paint.
- Consult your health care provider about testing your children for lead. Your pediatrician can check for lead with a simple blood test.
- Wash children's hands, bottles, pacifiers, and toys often.
- Make sure children eat healthy, low-fat foods high in iron, calcium, and vitamin C.
- Remove shoes or wipe soil off shoes before entering your house.

Lead Gets into the Body in Many Ways

Adults and children can get lead into their bodies if they:

- Breathe in lead dust (especially during activities such as renovations, repairs, or painting that disturb painted surfaces).
- Swallow lead dust that has settled on food, food preparation surfaces, and other places.
- Eat paint chips or soil that contains lead.

Lead is especially dangerous to children under the age of 6.

- At this age, children's brains and nervous systems are more sensitive to the damaging effects of lead.
- Children's growing bodies absorb more lead.
- Babies and young children often put their hands and other objects in their mouths. These objects can have lead dust on them.

Women of childbearing age should know that lead is dangerous to a developing fetus.

- Women with a high lead level in their system before or during pregnancy risk exposing the fetus to lead through the placenta during fetal development.

Health Effects of Lead

Lead affects the body in many ways. It is important to know that even exposure to low levels of lead can severely harm children.

In children, exposure to lead can cause:

- Nervous system and kidney damage
- Learning disabilities, attention-deficit disorder, and decreased intelligence
- Speech, language, and behavior problems
- Poor muscle coordination
- Decreased muscle and bone growth
- Hearing damage

While low-lead exposure is most common, exposure to high amounts of lead can have devastating effects on children, including seizures, unconsciousness, and in some cases, death.

Although children are especially susceptible to lead exposure, lead can be dangerous for adults, too.

In adults, exposure to lead can cause:

- Harm to a developing fetus
- Increased chance of high blood pressure during pregnancy
- Fertility problems (in men and women)
- High blood pressure
- Digestive problems
- Nerve disorders
- Memory and concentration problems
- Muscle and joint pain

Check Your Family for Lead

Get your children and home tested if you think your home has lead.

Children's blood lead levels tend to increase rapidly from 6 to 12 months of age, and tend to peak at 18 to 24 months of age.

Consult your doctor for advice on testing your children. A simple blood test can detect lead. Blood lead tests are usually recommended for:

- Children at ages 1 and 2
- Children or other family members who have been exposed to high levels of lead
- Children who should be tested under your state or local health screening plan

Your doctor can explain what the test results mean and if more testing will be needed.

Where Lead-Based Paint Is Found

In general, the older your home or childcare facility, the more likely it has lead-based paint.¹

Many homes, including private, federally-assisted, federally-owned housing, and childcare facilities built before 1978 have lead-based paint. In 1978, the federal government banned consumer uses of lead-containing paint.²

Learn how to determine if paint is lead-based paint on page 7.

Lead can be found:

- In homes and childcare facilities in the city, country, or suburbs,
- In private and public single-family homes and apartments,
- On surfaces inside and outside of the house, and
- In soil around a home. (Soil can pick up lead from exterior paint or other sources, such as past use of leaded gas in cars.)

Learn more about where lead is found at epa.gov/lead.

¹ "Lead-based paint" is currently defined by the federal government as paint with lead levels greater than or equal to 1.0 milligram per square centimeter (mg/cm²), or more than 0.5% by weight.

² "Lead-containing paint" is currently defined by the federal government as lead in new dried paint in excess of 90 parts per million (ppm) by weight.

Identifying Lead-Based Paint and Lead-Based Paint Hazards

Deteriorated lead-based paint (peeling, chipping, chalking, cracking, or damaged paint) is a hazard and needs immediate attention. Lead-based paint may also be a hazard when found on surfaces that children can chew or that get a lot of wear and tear, such as:

- On windows and window sills
- Doors and door frames
- Stairs, railings, banisters, and porches

Lead-based paint is usually not a hazard if it is in good condition and if it is not on an impact or friction surface like a window.

Lead dust can form when lead-based paint is scraped, sanded, or heated. Lead dust also forms when painted surfaces containing lead bump or rub together. Lead paint chips and dust can get on surfaces and objects that people touch. Settled lead dust can reenter the air when the home is vacuumed or swept, or when people walk through it. EPA currently defines the following levels of lead in dust as hazardous:

- 10 micrograms per square foot ($\mu\text{g}/\text{ft}^2$) and higher for floors, including carpeted floors
- 100 $\mu\text{g}/\text{ft}^2$ and higher for interior window sills

Lead in soil can be a hazard when children play in bare soil or when people bring soil into the house on their shoes. EPA currently defines the following levels of lead in soil as hazardous:

- 400 parts per million (ppm) and higher in play areas of bare soil
- 1,200 ppm (average) and higher in bare soil in the remainder of the yard

Remember, lead from paint chips-which you can see-and lead dust-which you may not be able to see-both can be hazards.

The only way to find out if paint, dust, or soil lead hazards exist is to test for them. The next page describes how to do this.

Checking Your Home for Lead

You can get your home tested for lead in several different ways:

- A lead-based paint **inspection** tells you if your home has lead-based paint and where it is located. It won't tell you whether your home currently has lead hazards. A trained and certified testing professional, called a lead-based paint inspector, will conduct a paint inspection using methods, such as:
 - Portable x-ray fluorescence (XRF) machine
 - Lab tests of paint samples
- A **risk assessment** tells you if your home currently has any lead hazards from lead in paint, dust, or soil. It also tells you what actions to take to address any hazards. A trained and certified testing professional, called a risk assessor, will:
 - Sample paint that is deteriorated on doors, windows, floors, stairs, and walls
 - Sample dust near painted surfaces and sample bare soil in the yard
 - Get lab tests of paint, dust, and soil samples
- A combination inspection and risk assessment tells you if your home has any lead-based paint and if your home has any lead hazards; and where both are located.

Be sure to read the report provided to you after your inspection or risk assessment is completed, and ask questions about anything you do not understand.

Checking Your Home for Lead, continued

In preparing for renovation, repair, or painting work in a pre-1978 home, Lead-Safe Certified renovators (see page 12) may:

- Take paint chip samples to determine if lead-based paint is present in the area planned for renovation and send them to an EPA-recognized lead lab for analysis. In housing receiving federal assistance, the person collecting these samples must be a certified lead-based paint inspector or risk assessor
- Use EPA-recognized tests kits to determine if lead-based paint is absent (but not in housing receiving federal assistance)
- Presume that lead-based paint is present and use lead-safe work practices

There are state and federal programs in place to ensure that testing is done safely, reliably, and effectively. Contact your state or local agency for more information, visit epa.gov/lead, or call **1-800-424-LEAD (5323)** for a list of contacts in your area.³

³ Hearing- or speech-challenged individuals may access this number through TTY by calling the Federal Relay Service at 1-800-877-8339.

What You Can Do Now to Protect Your Family

If you suspect that your house has lead-based paint hazards, you can take some immediate steps to reduce your family's risk:

- If you rent, notify your landlord of peeling or chipping paint.
- Keep painted surfaces clean and free of dust. Clean floors, window frames, window sills, and other surfaces weekly. Use a mop or sponge with warm water and a general all-purpose cleaner. (Remember: never mix ammonia and bleach products together because they can form a dangerous gas.)
- Carefully clean up paint chips immediately without creating dust.
- Thoroughly rinse sponges and mop heads often during cleaning of dirty or dusty areas, and again afterward.
- Wash your hands and your children's hands often, especially before they eat and before nap time and bed time.
- Keep play areas clean. Wash bottles, pacifiers, toys, and stuffed animals regularly.
- Keep children from chewing window sills or other painted surfaces, or eating soil.
- When renovating, repairing, or painting, hire only EPA- or state-approved Lead-Safe Certified renovation firms (see page 12).
- Clean or remove shoes before entering your home to avoid tracking in lead from soil.
- Make sure children eat nutritious, low-fat meals high in iron, and calcium, such as spinach and dairy products. Children with good diets absorb less lead.

Reducing Lead Hazards

Disturbing lead-based paint or removing lead improperly can increase the hazard to your family by spreading even more lead dust around the house.

- In addition to day-to-day cleaning and good nutrition, you can **temporarily** reduce lead-based paint hazards by taking actions, such as repairing damaged painted surfaces and planting grass to cover lead-contaminated soil. These actions are not permanent solutions and will need ongoing attention.
- You can minimize exposure to lead when renovating, repairing, or painting by hiring an EPA- or state-certified renovator who is trained in the use of lead-safe work practices. If you are a do-it-yourselfer, learn how to use lead-safe work practices in your home.
- To remove lead hazards permanently, you should hire a certified lead abatement contractor. Abatement (or permanent hazard elimination) methods include removing, sealing, or enclosing lead-based paint with special materials. Just painting over the hazard with regular paint is not permanent control.

Always use a certified contractor who is trained to address lead hazards safely.

- Hire a Lead-Safe Certified firm (see page 12) to perform renovation, repair, or painting (RRP) projects that disturb painted surfaces.
- To correct lead hazards permanently, hire a certified lead abatement contractor. This will ensure your contractor knows how to work safely and has the proper equipment to clean up thoroughly.

Certified contractors will employ qualified workers and follow strict safety rules as set by their state or by the federal government.

Reducing Lead Hazards, continued

If your home has had lead abatement work done or if the housing is receiving federal assistance, once the work is completed, dust cleanup activities must be conducted until clearance testing indicates that lead dust levels are below the following levels:

- 10 micrograms per square foot ($\mu\text{g}/\text{ft}^2$) for floors, including carpeted floors
- 100 $\mu\text{g}/\text{ft}^2$ for interior windows sills
- 400 $\mu\text{g}/\text{ft}^2$ for window troughs

Abatements are designed to permanently eliminate lead-based paint hazards. However, lead dust can be reintroduced into an abated area.

- Use a HEPA vacuum on all furniture and other items returned to the area, to reduce the potential for reintroducing lead dust.
- Regularly clean floors, window sills, troughs, and other hard surfaces with a damp cloth or sponge and a general all-purpose cleaner. Please see page 9 for more information on steps you can take to protect your home after the abatement. For help in locating certified lead abatement professionals in your area, call your state or local agency (see pages 15 and 16), epa.gov/lead, or call 1-800-424-LEAD.

Renovating, Repairing or Painting a Home with Lead-Based Paint

If you hire a contractor to conduct renovation, repair, or painting (RRP) projects in your pre-1978 home or childcare facility (such as pre-school and kindergarten), your contractor must:

- Be a Lead-Safe Certified firm approved by EPA or an EPA-authorized state program
- Use qualified trained individuals (Lead-Safe Certified renovators) who follow specific lead-safe work practices to prevent lead contamination
- Provide a copy of EPA's lead hazard information document, *The Lead-Safe Certified Guide to Renovate Right*

RRP contractors working in pre-1978 homes and childcare facilities must follow lead-safe work practices that:

- **Contain the work area.** The area must be contained so that dust and debris do not escape from the work area. Warning signs must be put up, and plastic or other impermeable material and tape must be used.
- **Avoid renovation methods that generate large amounts of lead-contaminated dust.** Some methods generate so much lead-contaminated dust that their use is prohibited. They are:
 - Open-flame burning or torching
 - Sanding, grinding, planing, needle gunning, or blasting with power tools and equipment not equipped with a shroud and HEPA vacuum attachment
 - Using a heat gun at temperatures greater than 1100°F
- **Clean up thoroughly.** The work area should be cleaned up daily. When all the work is done, the area must be cleaned up using special cleaning methods.
- **Dispose of waste properly.** Collect and seal waste in a heavy duty bag or sheeting. When transported, ensure that waste is contained to prevent release of dust and debris.

To learn more about EPA's requirements for RRP projects, visit epa.gov/getleadsafe, or read *The Lead-Safe Certified Guide to Renovate Right*.

Other Sources of Lead

Lead in Drinking Water

The most common sources of lead in drinking water are lead pipes, faucets, and fixtures.

Lead pipes are more likely to be found in older cities and homes built before 1986.

You can't smell or taste lead in drinking water.

To find out for certain if you have lead in drinking water, have your water tested.

Remember older homes with a private well can also have plumbing materials that contain lead.

Important Steps You Can Take to Reduce Lead in Drinking Water

- Use only cold water for drinking, cooking and making baby formula. Remember, boiling water does not remove lead from water.
- Before drinking, flush your home's pipes by running the tap, taking a shower, doing laundry, or doing a load of dishes.
- Regularly clean your faucet's screen (also known as an aerator).
- If you use a filter certified to remove lead, don't forget to read the directions to learn when to change the cartridge. Using a filter after it has expired can make it less effective at removing lead.

Contact your water company to determine if the pipe that connects your home to the water main (called a service line) is made from lead. Your area's water company can also provide information about the lead levels in your system's drinking water.

For more information about lead in drinking water, please contact EPA's Safe Drinking Water Hotline at 1-800-426-4791. If you have other questions about lead poisoning prevention, call 1-800 424-LEAD.*

Call your local health department or water company to find out about testing your water, or visit epa.gov/safewater for EPA's lead in drinking water information. Some states or utilities offer programs to pay for water testing for residents. Contact your state or local water company to learn more.

* Hearing- or speech-challenged individuals may access this number through TTY by calling the Federal Relay Service at 1-800-877-8339.

Other Sources of Lead, continued

- **Lead smelters** or other industries that release lead into the air.
- **Your job.** If you work with lead, you could bring it home on your body or clothes. Shower and change clothes before coming home. Launder your work clothes separately from the rest of your family's clothes.
- **Hobbies** that use lead, such as making pottery or stained glass, or refinishing furniture. Call your local health department for information about hobbies that may use lead.
- **Old toys and furniture** may have been painted with lead-containing paint. Older toys and other children's products may have parts that contain lead.⁴
- Food and liquids cooked or stored in **lead crystal or lead-glazed pottery or porcelain** may contain lead.
- Folk remedies, such as "**greta**" and "**azarcon,**" used to treat an upset stomach.

⁴ In 1978, the federal government banned toys, other children's products, and furniture with lead-containing paint. In 2008, the federal government banned lead in most children's products. The federal government currently bans lead in excess of 100 ppm by weight in most children's products.

For More Information

The National Lead Information Center

Learn how to protect children from lead poisoning and get other information about lead hazards on the Web at epa.gov/lead and hud.gov/lead, or call **1-800-424-LEAD (5323)**.

EPA's Safe Drinking Water Hotline

For information about lead in drinking water, call **1-800-426-4791**, or visit epa.gov/safewater for information about lead in drinking water.

Consumer Product Safety Commission (CPSC) Hotline

For information on lead in toys and other consumer products, or to report an unsafe consumer product or a product-related injury, call **1-800-638-2772**, or visit CPSC's website at cpsc.gov or saferproducts.gov.

State and Local Health and Environmental Agencies

Some states, tribes, and cities have their own rules related to lead-based paint. Check with your local agency to see which laws apply to you. Most agencies can also provide information on finding a lead abatement firm in your area, and on possible sources of financial aid for reducing lead hazards. Receive up-to-date address and phone information for your state or local contacts on the Web at epa.gov/lead, or contact the National Lead Information Center at **1-800-424-LEAD**.

Hearing- or speech-challenged individuals may access any of the phone numbers in this brochure through TTY by calling the toll-free Federal Relay Service at **1-800-877-8339**.

IMPORTANT!

Lead From Paint, Dust, and Soil in and Around Your Home Can Be Dangerous if Not Managed Properly

- Children under 6 years old are most at risk for lead poisoning in your home.
- Lead exposure can harm young children and babies even before they are born.
- Homes, schools, and child care facilities built before 1978 are likely to contain lead-based paint.
- Even children who seem healthy may have dangerous levels of lead in their bodies.
- Disturbing surfaces with lead-based paint or removing lead-based paint improperly can increase the danger to your family.
- People can get lead into their bodies by breathing or swallowing lead dust, or by eating soil or paint chips containing lead.
- People have many options for reducing lead hazards. Generally, lead-based paint that is in good condition is not a hazard (see page 10).
