

Financial Policy

At Fieldstone Veterinary Care we strive to deliver the best veterinary care and best value. We normally expect full payment for all services when they are rendered. We accept cash, personal checks and all major credit cards.

We understand that at times full payment for our services may not be possible and try to be flexible whenever possible with clients that have established a good credit history with our office.

In addition, we offer instant credit through Care Credit which provides no interest loans for a period of 3 months for qualified applicants.
