Sorrow is a universal human experience, one that arises from a vast array of losses.

Sometimes the symptoms of our grief are overwhelming, washing over us in waves of emotion. Making sense of our loss in a way that is transformative is at the heart of our sorrowing journey.

This support group is for adults who have experienced a loss.

Interested participants will be contacted by a facilitator who will discuss the program content, answer your questions and discuss readiness for group grief work.

---

Grief groups are an opportunity to explore sorrow with those who have experienced a loss. Hearing the stories of how others are journeying through grief may affirm that we are not alone in sorrow and that it is a natural and important part of human growth.
