COVERUPS CUSTOM QUILTING • 615-230-8433

Nothing can make a home or business look better than a custom pillow. We also do spreads and any kind of sewing. Ask for Pat!

It's getting so close to the August 21 the big eclipse day...thousands from all over for the once in a life time event..Hello I am Bill Buntin. For years now I have enjoyed bringing you Let's Talk Sports...Gwen, manager at the Trader, does great work with helping you promote your business or place your ads for items you have to buy, sell or trade....Pat at Cover Up Custom Sewing has been with us since day one...Thousands here for the eclipse...and record crowds checking out their football and soccer teams...Trousdale County hosted some fine talent in a jamboree..the golden throated Cheese, Jerry Richmond had it covered on fun Radio 95.3 fm...other stations in the area brought you pre-season action, even tv covered the Jets and Titans..I think sports fans are at an all time fever pitch after last year's music city turnout... follow that up with the two huge crowds for adult soccer...the Preds set the area on fire with record crowds! Even the Palace Theater in Gallatin..Portland put up huge screens and big turnouts for play off games....now the Wilson County Fair is here..Last year 500,000 folks from all over partied and enjoyed one of the best fairs in the south..Sumner County decided to push their fair back. A Gallatin softball and couple of weeks..it's soccer in the fall and Galatin has a new excellent head in this area finest Mike Draper looks good in Green and Gold..Portland got new boys and girls basketball coaches..this area lost Dewayne Alexander, former high and college coach, as he is now at East Tennessee State with new stadium and great recruited.....Cumberland University excited about football and soccer... of course they are always great in baseball...Vol State and their all star coaching staff should set the state on fire...Rusty Melvin, men's basketball coach, bring in the big boys..Hunts has baseball ready...softball has a hall of fame coach in Johnny Lynn... has the hitters this year..Coach Lee expects more girls on his team after having only six last year..the former Globbe Trotter is fired up...Vandy..Tennessee..Middle and Western all good. Look for improvement from Austin Peay and Tennessee State...Vol State's looking to open another campus in Wilson county and they are rich with athletes in Mt Juliet and Lebanon....Heritage..Gallatin..Beech..Station Camp hot..Macon county..Westmoreland more talent..Franklin, Kentucky loaded...Scottsville excited...we all know Trousdale..Gordonsville..Carthage...good..Watch for Wilson Central..Mt Juliet to challenge.... Lewis, the hottest young golfer around...If you have talent in your area, please let us know..I told Miles Wanstrath I would mention the Gallatin fishing team, plus feshman baseball at Gallatin hot..Mark Wilson, a fine coach and Mark also is loaded with talent....call or write us about your town..team and players.....we care..Covering the area in the Trader and on-line...this is Bill Buntin saying thank you...and yes it is football time in Tennessee....lol...btw fishing ace Miles Wanstrath tried out his new kayak...Look for Titans to play better at home this week...Nashville trying for a pro soccer stadium...racing hot at the fairgrounds...tickets on sale for the Wave and Trousdale county has moved up a grade in football and... catch Lebanon a six a team soon. Wow!!!!..Galatin ties in their jamboree..watch for Beech and Mt Juliet in six a football...lots of color with local players and local coaching movies.....transfer sophomore quarterback looks super..and Bobby Ridings on the air again with WHIN to tell about about the greenies...jamboree over..let's see who calls and broadcast the games and on which stations..WHIN still has big time racing on the air...Jerry Joslin and Goodpasture to reload....And once again, eclipse time is nearing..Portland mayor Wilburn expects one hundred thousand to watch and there are several locations to view in Gallatin..again thanks to Cover Up Custom Sewing and our wonderful manager here at the Trader..thousands follow your players and teams right here in the Trader. I am Bill Buntin thanks again for your tremendous support of our Let's Talk Sports...

Looking directly at the sun is unsafe except during the brief total phase of a solar eclipse ("totality"), when the moon entirely blocks the sun's bright face, which will happen only within the narrow path of totality.

ECLIPSE GLASSES; The only safe way to look directly at the uneclipsed or partially eclipsed sun is through special-purpose solar filters, such as "eclipse glasses" or hand-held solar viewers. **Homemade filters or ordinary sunglasses, even very dark ones, are not safe for looking at the sun;** they transmit thousands of times too much sunlight.

Always inspect your solar filter before use; if scratched or damaged, discard it. Read and follow any instructions printed on or packaged with the filter.

Always supervise children using solar filters.

Stand still and cover your eyes with your eclipse glasses or solar viewer before looking up at the bright sun. After looking at the sun, turn away and remove your filter — do not remove it while looking at the sun.

Do not look at the uneclipsed or partially eclipsed sun through an unfiltered camera, telescope, binoculars, or other optical device.

Similarly, do not look at the sun through a camera, a telescope, binoculars, or any other optical device while using your eclipse glasses or hand-held solar viewer — the concentrated solar rays will damage the filter and enter your eye(s), causing serious injury.

Seek expert advice from an astronomer before using a solar filter with a camera, a telescope, binoculars, or any other optical device. Note that solar filters must be attached to the front of any telescope, binoculars, camera lens, or other optics.

Remove your solar filter only when the moon completely covers the sun's bright face and it suddenly gets quite dark. Experience totality, then, as soon as the bright sun begins to reappear, replace your solar viewer to look at the remaining partial phases.

Outside the path of totality, you must always use a safe solar filter to view the sun directly.

If you normally wear eyeglasses, keep them on. Put your eclipse glasses on over them, or hold your handheld viewer in front of them.
