Mayor Baustian called the Public Hearing Meeting to order at 7:00 p.m. followed by the Pledge of Allegiance;

Planning Commission members Jerry Tower and Kurt Jandl were in attendance for the public hearing regarding a variance request from Todd Drake. Drake is proposing to build a garage on an empty lot located at 120 6th Street West. The reason for the hearing was to ask for a variance to build an accessory building on a lot that does not contain a primary building. Three neighboring residents were in attendance, all opposed to the variance. Neighbors raised concerns regarding semi-truck traffic, placement of "junk", storing items outside of the garage, increased traffic, etc. One resident mentioned that Drake moved trusses onto the property before the public hearing which left a sour taste in all the neighbors' mouths. Drake informed all residents that he intended on building a garage much like a residential garage, using the same materials as he would with a residential build. Drake also informed the neighbors that he does not own a semi-truck and will not be operating his business out of the property. The garage will just be used to store his pickup truck and trailer which are used for his construction company and do not exceed the weight limit for the city streets. The neighboring residents were still not in agreeance regarding the request as they do not want to see a commercial property located directly between residential properties. Drake informed the neighbors, committee and council that commercial properties are not available for purchase within city limits that he was aware of. Motion by Planning Commission member Jerry Tower to deny the request from Drake to build an accessory building on a property that does not have a primary structure present, seconded by Kurt Jandl. Based on the recommendation of the Planning Commission, the council denies the request made by Drake. Motion by Leslie, seconded by Lape to deny the variance request from Todd Drake, all ayes, carried;
