Service

I specialize in catering your intimate gatherings of 4 to 25 guests; gumbo dinners can serve up to 40 guests. You will receive personalized service to help create your idyllic party so you can relax and enjoy your company. Whether you are hosting family, friends, or colleagues I will help you focus on your companions and good conversation by providing great, authentic Cajun meal.

My goal is for you to host the perfect gathering. I will help fine tune your arrangements by visiting you at your party site (upon request) and talking through your unique needs. Together we will iron out all the details. I will then deliver your cuisine at the requested date and time (recommended to be about 15 minutes before guest arrival to ensure freshness).

I will provide you set up and serving dishes and will pick up them up again the day after your party so you have one less thing to worry about.

I use locally sourced products whenever possible to deliver the highest and freshest quality for you.

Please call or email me at the contact information below to schedule an appointment. I am looking forward to meeting you!
