Glenn Sturm

Thanksgiving is a very special time to reflect on the wonderful happenings in our lives. To share our thoughts, hopes and dreams with those special to us, while giving thanks for what has already come to be. This is also a time of sharing, and what could be more worth-while to share than knowledge? Everyone who shares this earth with us can learn something, and is capable of teaching something. So, for those special people in our community who share their time, knowledge and understanding to help our learners we Thank You! For those in our community who take the time to share information about LVG and our mission, Thank You! For those who encourage our fellows to seek help when needed, Thank You!

A huge shout out and THANK YOU to all our volunteers and donors!

Without you we could not be *Equipping Adults for Tomorrow!*

This month's 'So you think you can GED?'

Subject: Science! (from GEDPracticeQuestions.com)

Mechanical advantage is a measure of the force amplification that is achieved by using a tool, mechanical device, or machine system. The formula for mechanical advantage is:

MA = output force/input force

A crowbar can be used to remove a nail from a board. If the crowbar has a mechanical advantage of 8, and the a force of 40 Newtons is applied to it, what will be the output force?

- A. 5 Newtons
- B. 320 Newtons
- C. 0.2 Newtons
- D. 32 Newtons

Answer will be revealed on Facebook on 12/3!

Upcoming Events!

Event: Xmas/Holiday Parade

Date: December 1st

Location: Main Street

Additional Info: Come out and support the Gloucester Community!
