PRESIDENT'S MESSAGE

CELEBRATING 40 YEARS

The Club kicked off its 40th year with a nice meeting at Harold's several weeks ago. On behalf of the membership, I would like to thank the Fosketts for hosting this event. As always there were stories, business and great snacks to enjoy.

How time flies!!!! Forty years is a long time for a grass roots club to carry on. There are too many names and events to mention leading us to this time and place. THANK YOU to every one past and present who have contributed their time and/or talents to the Nutmeg Chapter.

As the story goes, we are not at the finish line yet. Many truck show committee members were present at the last meeting and outlined their efforts to date insuring that the Annual Show on June 25, 2023 is well underway as far as the planning stage is concerned. As always, the success of this event is squarely on the shoulders of the membership. Your help is needed more than ever this year. Regretfully due to illness, some of our valued workers may not be able to attend this event this year. Someone has to step up and fill these positions. We are looking for gate workers to collect admission fees. All we are asking is a couple of hours of your time. Thank you. We are pleased to report that the Girl Scout troop has informed us that they will be available to assist the Club in parking spectator vehicles as in past years. They are a great assist and we are looking forward to working with them again.

The weather has been kind to us this year. It will not be long before we are uncovering our vehicles and getting out and about getting things done around the house. Have a safe winter and see you at our March 19th meeting.

Tom

MEET THE REGIONAL VICE-PRESIDENT FOR THE NUTMEG CHAPTER

Hi Fellow Nutmeg Members,

I'm Tom Voccola from Orange, CT. I am currently working with the Nominating Committee to be Connecticut's RVP for the ATHS. I think it would be greatly beneficial for both the ATHS and the Nutmeg Chapter to have representation and transparency between the two. This has been an open position for quite some time and I feel that I can fill this void to better help the Nutmeg Chapter. I am a Mechanical Contractor and for the past 21 years, I have been associated with a small family business. I have been into Antique Trucks and Tractors since a very early age and it has become a real passionate hobby for me the past 15 years. I've been an ATHS member for 12 years and now a Lifetime member as of 2 years ago. I look forward to doing what I can to better help our Chapter.

See you all on the road! Tom Voccola

Editor's Note:

It has been about 15 years since the Nutmeg Chapter has had a Regional VP. Nutmeg member Tom Voccola has committed to this position. He has given this considerable thought and he has talked with National numerous times about what the job entails. He sees a need for a RVP to keep our Chapter moving ahead. Tom has agreed to a one-year term that won't officially start until October 2023. Tom will be the RVP for the Nutmeg Chapter only, not for RI and Mass. Tom plans to attend our March 19th meeting at Matt Pfahl's. Come and meet him there.

ATHS LOGO

You may have noticed the ATHS Logo displayed more frequently in this issue. At a recent ZOOM meeting regarding creating flyers for ATHS events, we were informed as how to apply for the logo. The Nutmeg Chapter received permission to use the logo on truck show posters and signs, membership flyers, web-site, Facebook and our newsletter.

The Online Newsletter is available to all. It was noted that 14 new members joined at the Brooklyn Show. NEW BUSINESS : 2023 NUTMEG CHAPTER TRUCK SHOW: June 25, 2023

1. John Raymond has secured the Brooklyn Fairgrounds with a verbal contract.
2. The food vendors have been lined up.
3. Photos of Rob & Vanessa Coutu's 2023 show trucks have been taken for the flyers, tee shirts and dash plaques
4. The Certificate of Insurance has been requested online from National ATHS
5. The Girl Scout troop has informed us that the Scouts will park spectator vehicles again this year at the show.
6. National ATHS now requests a copy of the show poster in order to include the Brooklyn Show in the publicized schedule of the Wheels of Time and also in order to get the insurance certificate. The purpose of this is to show any chapter's commitment to actually having a show. Apparently the deadline for this now is November/ December, which is two months earlier than in the past.
7. Tom asked for members' feedback from the 2022 show experience.
 - It was recommended that the New Membership handouts be printed two on a sheet, then cut in half.
 - Rob Coutu spoke of the Nutmeg Chapter and the ATHS truck clubs as being representative of patriotism, history, common interest, fellowship, all pieces of Americana. With that said, he made the recommendation to introduce new entertainment that would include an emcee and trucking songs. Gary Pomo, a well-known local entertainer, would provide the type of entertainment more suited to a truck show. There was enthusiasm expressed and Rob was asked to contact Gary and to follow up on availability and sound system requirements if he is not self-contained. John Raymond will also contact the fairgrounds about a sound and public address system.
 - Perhaps the trucks could be announced as they enter the fairgrounds.
 - Perhaps there could be a 12:00 horn blow.
 - Kathy Arnauckas spoke of a potential new pool of volunteers among the high school students who need community service hours as a requirement for graduation. Other sources could include 4H Clubs, TEEG, and ARC. These volunteers would be teamed with adult club members. Gate 1 was short on volunteers in 2022.
 - Don mentioned that Ballston Spa and other clubs pay helpers.
 - The Cornet Band has inquired about appearing at the 2023 Brooklyn show. Club will follow up after contacting Gary Pomo.

What I like about the Truck Club

by Rob Coutu

Those of you who attended this year's Thanksgiving feast and meeting at the Haul of Fame Museum, you heard me speak briefly about the things that I enjoy about our Truck Club.

Here is a little deeper dive into what I was getting at.

I am not sure what year I officially joined the Club. But I have been attending the Club's Brooklyn truck show for many, many years. This is because of my love for all things "TRUCK". My whole life has been about trucks, hunting for them. Dragging them home, fixing them, driving them, selling them, and of course salvaging tons of trucks for parts for trucks over the years. It stated when I was a child riding with my dad picking up junk cars in about 1970. I am a 3rd generation junkman. So my fascination with old trucks has been brewing for quite a while.

As I have gotten a little older, my perspective has changed quite a bit. I have begun to realize there is something much deeper to my love of old trucks and that period in time, known as the "GOLDEN AGE OF TRUCKING" which I interpret to be from about the mid 30's to the mid 60's.

Standing in the turmoil of today's current state of our nation and world, and looking back to that time, I can only shake my head in disbelief of just how far we have drifted from that "Golden Age", I look back to that time when these old trucks were running the roads. I relish the thought of a simpler less complicated time. A more wholesome and honest time. A time when our country was united to fight against the evils of dictators and Communist wild men. A time when our enemies were clearly defined. A time when factories were humming with activity. And the country was hugely independent and strong.

A time when one man with a good moral foundation, a dream, determination and grit, could start a business with one truck a couple hand shovels and build a booming enterprise.

A time when there was a church on every corner of every little hamlet and village. An on Sunday morning, all work would stop, and the parking lots were full, as people worshiped their Creator.

A time when there was no need to lock your doors in fear.

A time when people were friendly and civil towards each other.

A time when you could assume that GOD was the center of most peoples' lives and be right in that assumption.

A time when being patriotic and fearing GOD was a good thing! Not thought of as radical or extreme!

Getting back to the point. I love the fact that before each official meeting, this Club pledges its allegiance to the flag of the United States of American and to the Republic for which it stands. One Nation under God, Indivisible with liberty and justice for all.

In doing so we honor AMERICA and GOD.

In the history past, there have been nations like ours. That in the beginning, worshiped and honored GOD; and then once prospering, they forgot that GOD was the author of all their success. And they began to believe they didn't need GOD. When they failed to give Him a place of honor, when they denounced his Lordship and relied on themselves, they fell into decline and every kind of wickedness and debauchery and eventually into destruction.

People, I believe that is what we are experiencing in our nation today.

We as a Club are an oasis of goodness and truth in a world of chaos and division on so many fronts.

We as a Club are trying to keep a little piece of that good old AMERICA alive.

We still remember the hard work. And the sacrifices that so many of our members, fathers, grandfathers and great-grandfathers made towards protecting our freedom and in the building of our great country.

We still stand and pledge our allegiance to the flag.

We still give GOD a place of honor above our nation.

We are not afraid or ashamed to honor GOD.

By restoring these trucks and keeping these memories and stories alive, we are preserving this special time in our country's history.

What I like about the Truck Club--Continued

I truly love to hear the stories of the guys who drove these old trucks. And the tales of huge loads, terrible roads, and extreme weather conditions of all kinds. And how they overcame adversities with their Yankee ingenuity, common sense and perseverance.

Maybe you never thought this deeply about the Club before. I hope this helps you to see it in a new light. Sadly our club is shrinking every year as many of these great men and women have gone on to be with the LORD. We need to remember and celebrate these men and women and that time in our history, before it slips away completely. So, what can we do to keep the Club strong and growing. Well, simply we need to reach out and engage the younger guys and gals we meet at shows and in our daily travels. Invite them to check out the Club, bring them to a meeting, or a show to enjoy some camaraderie, truck stories and a meal. A wise man once said, "Feed them and they will come." It usually works on me! If each one of us consciously sought to bring a new guy in, and even if only a few of us were actually successful, it would be a huge boom for the Club. We really need some new guys and gals to keep this thing going.

The Club is not going to appeal to everyone. But surely, if we think about all the people we interact with in our travels, we must know folks that think and like the same things as we do. Maybe they have an old truck. Maybe they don't. It doesn't matter. Just to have a fondness for old trucks, mechanical things, and our AMERICAN History is enough. I know it is tough today. We all have so much going on. My wife and I both work 6 days a week. It doesn't leave much time for other things.

But if we are going to keep this Club together, we need some new folks to help us. Let's be on the lookout for potential new members.

If you are reading this message, you are already a member. Maybe you weren't aware the Club needs more support from its membership. So come to a meeting, get involved.

THIS IS JUST ONE MAN'S OPINION.

Rob Coutu

INTRODUCING OUR 2023 BROOKLYN SHOW TRUCKS

This year we will have two trucks featured on our show poster and dash plaques. **Rob & Vanessa Coutu** will have the honor for 2023. **The 1972 Chevrolet C-60 roll-off** is a working truck for Coutu Truck Country in Willimantic, CT. No one would think this truck is over fifty years old by the way it looks. **The 1949 Diamond T 201 pick-up** is in nice original condition. The engine is 91 horsepower with a 4-speed transmission. The Model 201 is heavy-duty all around (one ton) and has an 8 foot body. It was the discriminating buyer who would purchase a Diamond T 201 in 1949.

TABLE TOP TOY TRUCK SHOW

MARCH MEETING

We all know our favorite antique trucks do not come out in March, so we are bringing back the **Table Top Toy Truck Show** for our March 19th meeting. There will be no worries that they will not start, no need to worry about those nasty chemicals on the road, and the really great news is that they won't need to be washed after the show! Please bring any Toy Trucks, Model Trucks, Childhood Sand Box Toys, Models of your 'Real' Truck, anything along this line that can be displayed on a table top. We would love to hear your story of your favorite treasure from your collection. And while we are at Matt's, be sure to take a look at his extensive toy and train collection. Guaranteed to make your afternoon memorable.

Thanks for Contributions to the Steering Column

As you are aware, we are continually looking for contributions from our members for the Steering Column. This issue we salute and send Special Thanks to Rob Coutu for his contribution "What I Like About the Truck Club". Timely thoughts about the Nutmeg Chapter. We should also note that Tom Bachand and Betty Jay are timely in their submissions to each newsletter and we are thankful for their input as well. Any and all contributions are welcome, just contact Don at 860-274-4758 with your idea or story. It's fairly easy—Just Ask Rob.

Maggie's Looking for Toy Barn Vendors!

Maggie McCormick recently attended the Toy Show in Springfield, MA with 2023 Toy Barn flyers in hand. She reported that she handed out 17 flyers to prospective Vendors. Thank you Maggie for your enthusiasm and dedication to the Nutmeg Chapter.

Winter is making way for Spring!

Soon it will be time to get your vehicles ready for the **2023 Brooklyn Show**. Take an armchair tour of the **2022 show**.
