Non agenda item discussion- Co-Chair Eldridge stated Commissioner Guin request he speak about her concerns regarding billboards in the county. Several concerns voiced by Co-Chair Eldridge and Commissioner Caldwell were the looks and the size of the billboards. Several PC members voiced concerns regarding violating Freedom of Speech and the additional manpower and vehicle

needed by Planning and Zoning to regulate a possible sign ordinance due to the county's size (570 square miles). Another concern of the Planning Commission relates to the depth of monitoring other signs such as yard sale and real estate signs. The City of Fayetteville (9.62 square miles) has 1 employee just for sign ordinance enforcement. Several PC members stated if the billboards present a danger, such as obstructed views, Tennessee Department of Transportation or the Lincoln County Highway Department should intervene. But based on experience, these billboards are not obstructing traffic view due to height. Commissioner Caldwell suggested billboard installers pull a permit from the Planning & Zoning office. Secretary Hunter explained the process to require a billboard/sign permit be mandatory.
