Deal: Georgia will protect children from federal overreach

Atlanta(05-18-16) - Gov. Nathan Deal today issued this statement in response to the Obama administration's directive to school systems: "The Obama administration's directive, recently announced by press release, to local school systems regarding accommodations for transgender students has generated confusion and controversy among parents, students and school officials. While I do not believe this directive carries the force of law, the Departments of Justice and Education have threatened to revoke federal funding from schools that fail to comply. Georgia's constitution and state laws, however, require these decisions be made at the local level." (GA Trend)

MEMORIAL DAY—A day to remember

Memorial Day is a special day to not only spent time with family and friends doing what you like to do on holidays but to also use it as a teaching day for the youth in your lives. Even if you never spend a day in a uniform of our nation's military. What you tell them about our history as you know it that lead our nation to the wars that our brave men and women fought and many died in should be told and retold to insure that when they get to the point where decisions have to be made they will know that it is a serious undertaking. Serving in the military is an honorable profession and has produced some this country's greatest leaders, but nowadays there is no draft, only volunteers. I believe less than two percent of those eligible

are serving and protecting us. Memorial Day is also the day to remember those that gave their lives in defend of this great nation. That is the number one reason so, before you head out to enjoy the holiday think about those that are not here to go to the beach or enjoy that backyard BBQ and silently thank them for their sacrifice.

"What you leave behind is not what is engraved in stone monuments, but what is woven into the lives of others.

May a portion of the legacy of the heroes we remember be found in the lives we lead, giving deeper meaning to their sacrifice."

He stood before my desk with a set of orders and said, "FTC

Nichols reporting for duty, Sir." Not hearing his designator very clearly I asked, "What do you do for the Navy?"

"Sir," he said crisply, "I recently completed a tour of duty on a guided missile frigate. I was the one who was responsible for making certain that the azimuth on each weapon system was operational and accurate, Sir." He certainly had my attention and spoke in a convincing manner. There was no doubt in my mind that he was competent to do his job and that all weapon systems under his control would deliver their missiles to the intended target at the precise moment. God wants to place His

"azimuth" in our hearts. David wrote, "My heart is steadfast O God; My heart is steadfast." So committed was he to the Lord that he emphasized the word "steadfast" by stating it twice. But there is something more.

The word "steadfast" can also be interpreted, even more correctly in this verse, as "confident!" Here we find David, after trying many different paths to find satisfaction, finally found it in God. It was his firm faith that was the result of an inner transformation that was now going to be visible by the way he worshiped and served God.

When we completely commit our lives to God, He will give us His guidance system to control the destiny of our lives. His Word will become our "azimuth."

Jesus did not let him [the man from whom he had cast out demons] come with him, but said, "Go home to your family and tell them how much the Lord has done for you, and how he has had mercy on you."

Time Check Military Humor

On some air bases the Air Force is on one side of the field and civilian aircraft use the other side of the field, with the control tower in the middle. One day the tower received a call from an aircraft asking, "What time is it?" The tower responded, "Who is calling?" The pilot replied, "What difference does it make?" The tower replied "It makes a lot of difference. If it is an American Airlines flight, it is 3 o'clock. If it is an Air Force plane, it is 1500 hours. If it is a Navy aircraft, it is 6 bells. If it is an Army aircraft, the big hand is on the 12 and the little hand is on the 3. If it is a Marine Corps aircraft, it's Thursday afternoon and 120 minutes to "Happy Hour".
