

*Back in 1995, the "builders paint" on our new home was fading fast. It was time for a repaint.*

*One of my neighbors just had her house repainted and I visited her to talk about her painter and if she was satisfied with his work, etc.*

*Shortly thereafter, Steve Blair was at my home to talk about the outside paint. I was also due for a pressure washing so we contracted to have the job done by his company, Steve's Painting.*

*Within two weeks, I was scheduled and completed. Satisfied? MORE than! Everything was done completely and very neatly. No shrubs were damaged or spotted with paint. No splatters on the drive or walkways.*

*Now, 14 years later, Steve's has painted the complete inside of the house (some of it more than once!!). I have also recommended him to at least 25 neighbors for paint and washings as well as recommending his firm to do our 44000 sq. ft. clubhouse. He has done the inside of that as well.*

*But, here's the best part; I can call Steve a personal friend of mine! We occasionally have lunch together to talk about our families and his business. And, I am proud to recommend Steve and his crew to any of our neighbors as well. Dedicated, caring and honest business people are maybe a rarity. We found one in Steve!!*
