

## Notes on Pastoral Conflicts

This is a small sample of significant items.  
There are over 600 pages of relevant documentation.

The Letters of Concord are comments on conflict in my denomination.  
They do give an illustration of the kind of person I am.

Several items give an overview of my issues.

The Item Responses and Comments was put in to post those I received.  
It is essentially empty. I receive almost none except "take me off your mailing list".  
I was hoping someone would send me explanations, attempts to justify what has happened.

If you would like me to post something with your name, I will do so.
