Make sure that your flight arrives between noon and 2p.m. so that you have time to get back and settled in at the lodge. For your departing flights, you will be leaving the day after your last hunt day, so please schedule your flight for a departure time after 11 a.m.

For those that are driving to Kansas please arrive at the lodge no later then 5p.m., the same day as the hunters who are flying, and you will also schedule your return home drive on the same day as the flyers depart.

If you are flying into Tulsa and you tag out early in your hunt and decide to leave you will be responsible for your transportation to the airport. Transportation is the Hunter's Responsibility to and from the airport. To avoid this we suggest renting a car.

Thank you and good hunting!
