Our commercial printing department enhances our ability to maintain a one-stop environment for most all of your graphic needs.

From simple one- and two-color work to more complex four-color printing, we can assure you of the quality and professionalism needed.

From original design to printing, final bindery and mailing, you can rely on us to complete your project quickly and efficiently.

Around 150 co-workers and 110,000 sq. ft. manufacturing facility blend together to accommodate the printing requirements of our customers and our own publications.

Equipped with some of the finest state-of-the-art equipment available, we are prepared for the smallest to the most sophisticated jobs. From the moment your project enters our doors it will receive careful attention to detail with uncompromising standards.

MAN Roland Cromoman

The heart of our printing plant includes the 16-unit MAN Roland Cromoman. With running speeds up to 45,000 papers per hour, we specialize in printing on uncoated paper-quickly and efficiently.

CROMOMAN, a highly flexible, reliable four-page production system for commercial work, prints at speeds of up to 50,000 cph., and is configured with shaftless drives.

CROMOMAN offers fast setup and centralized on-the-run control with MAN Roland's intelligent PECOM press control system. From the PECOM press control center the printer controls the entire press line, monitors the printing process, and optimizes print quality.

The robust printing unit design is an H-style unit with vertical web for fast plate-up and maintenance operations which can be configured in an eight-cylinder tower configuration for spot color or process color applications. Play-free, pre-tensioned three-race bearings ensure uniform and high print quality at all press speeds.

GOSHEN OFFICE
