To Whom It May Concern,

Detroit Country Day School became aware of Tenurgy and their services in early 2020. After providing one month of bill copies and a letter of authorization, Tenurgy's team went to work on the audit process.

One of the benefits of Tenurgy, even more so today, is they were able to work through and complete the audit remotely. To our pleasant surprise, Detroit Country Day School is in line to save over \$120,000 annually between our electric, natural gas and telecommunications accounts.

It is reassuring knowing that the Tenurgy team will continue to monitor our future utility and telecom programs, providing us the peace of mind that we will always have the optimal programs in place in this complex and ever-changing market. I would highly recommend Tenurgy's services to any schools or other businesses looking to save on their utilities.

Sincerely,

A handwritten signature in cursive script that reads "Patricia A. Brand".

Patricia Brand

Chief Financial Officer

Detroit Country Day School
