

HAPPY HOLIDAYS!

Our Children Only Get One Education

We share important updates that directly affect classrooms, school boundaries, curriculum transparency, and parental rights here in Montgomery County. UARE exists because local parents stepped up and said: *we want a voice.*

Your donation helps keep parents informed, supports outreach across the county, and allows us to recruit and elect school board candidates who listen to families - not bureaucracies.

If you believe parents deserve a seat at the table,

ACTION NEEDED MARYLAND HEALTH CURRICULUM FRAMEWORK

new recommended Family Life framework for Maryland removes references to gender in grades Pre-K through 4. They have recommended teaching those concepts in grades 5-12.

If you agree that introducing these concepts should be up to the parents, and that the concepts of "sex assigned at birth" or "gender identity" are not based in science, please click the link below to comment. The state board will be reviewing the comments to make a decision on the final draft of this framework. Please be specific and ask that lessons on gender identity and sexual orientation be removed from all grades, Pre-K through 12. Here is the link to comment: [MSDE Health Education Public Comment Survey](#)

If you prefer to send an email: healthandpe.msde@maryland.gov

Link to proposed framework: [Maryland's Comprehensive Health Education Framework](#)

Please spread the word! We want hundreds of comments in favor of returning our schools to places that educate based on facts, and where parents control values based conversations with their children.
