

COTTON FINGERPRINT

The cotton naturally absorbs different levels of chemical elements and isotopes. This gives the cotton its unique origin fingerprint

ANALYZE ORIGIN FOOTPRINT

Samples of genuine SUPIMA® cotton are collected and analyzed to identify the origin fingerprint

STORED DATABASE

Fingerprint of Cotton is stored in the Oritain Databases. This allows data to be studied and stored in a manner that it is accessible and easy to analyze.

A Global Leader In Forensic Sciences

ORITAIN DATABASE

WWW.ORITAIN.COM

SAMPLES TO PROVE

Samples are then taken from every crop of SUPIMA Cotton to ensure that the product is 100% authentic and traced throughout the entire distribution process.

ORIGIN TESTING IN MARKET

Products from the market are tested to verify the claimed origin of the product

SUPIMA GUARENTEE

All of these steps, coupled with a keen eye for details, is what truly makes SUPIMA Cotton the finest cotton in the world!

Further investigation will be undertaken by SUPIMA® for failed audit results
