features

Crystal Fire™ Burners are made from high quality stainless steel (#304) and include tempered glass gems and ignition controls. All standard burners are UL listed for safety and quality. They work with our line of fire pit tables or can be purchased separately for custom-built fire pits and projects.

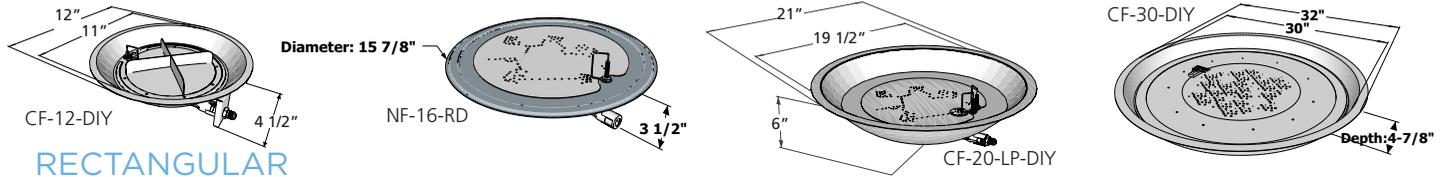

Crystal Fire™ Burners run for up to 8 plus hours using a 20 lb. propane tank or can be hooked up to a natural gas line. Adjust the flame height to your desired setting and enjoy. With just the push of a button, a beautiful clean-burning fire appears atop a bed of tempered glass fire gems.

- 1 year warranty on ignition
- Limited Lifetime Warranty on stainless steel
- Electronic battery operated ignition
- Adjustable gas valve for flame height
- Can be purchased individually to be used for custom-built projects
- Glass guard recommended to enhance flame
- UL listed
- Can be color coated in 1 of 5 custom colors
- Includes: LP hose and regulator, metal flex hose, ball valve, push button sparker system
- Control Panel with gas valve sold separately

| 56" Wave Burner | WV-56-BLK-DIY | 13 7/8" | 8" | 55 5/8" | 14 lbs. | 150,000 |

automatic ignition

The CF-AI system is a direct spark ignition with flame sensing and automatic valve. The system is controlled by a module that sends a spark signal to the electrode (igniter), opens the gas valve and then the gas ignites. Once lit, the flame recognition senses the flame, and the electrode stops sparking. If the conditions are windy and the flame blows away from the sensor the system will try to reignite. If the burner is unable to reignite after 12 seconds, the system will enter safety shut down mode and close the gas supply to the burner. As with all Crystal Fire™ Burners, installation should be completed by a certified gas technician.

- CF-AI available to custom order on all Crystal Fire™ Burners
- 1 year warranty on ignition
- Limited Lifetime Warranty on stainless steel
- Simple ON/OFF operation
- Crystal Fire™ Burners with automatic ignition can be purchased individually to be used for custom-built projects
- Glass guard recommended to enhance flame and performance
- UL listed when used with Crystal Fire™ Burners
- Can be color coated in 1 of 5 custom colors
- Includes control panel with ON/OFF switch
- Optional remote sold separately (A23 battery required)
- CF-AI comes set up to run on two D batteries but can be adapted for 110V
- Installation should be completed by a certified gas technician

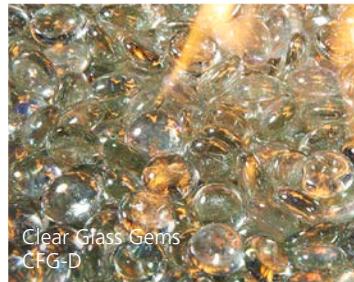

diy burners

Do-it-yourself with the DIY Fire Pit Kit. Comes with Burner Assembly Kit and detailed instructions. All you need to buy is paver stones and fire media.
