

St. George Medicinal Herb Inc.

ST. GEORGE NANO SILVER

NANO SILVER (AG+) PARTICLE SOLUTION

Nature's • Antibiotic • Antiviral • Antiyeast • Antiparasitic

St. George NANO Silver will remove over 600 known bacteria, viruses, yeast and parasites. All infectious diseases have a "Minus (-) Charge" and will attract NANO Ag+ to them and neutralizes them instantly and afterwards it acts like a neutral silver particle and continues to battle infections by disrupting metabolism and DNA replication of the offending bacteria, virus, yeast or parasite until the silver leaves the body, usually in 3-5 days after use.

Silver is a transition element, not a heavy metal. It is not poisonous. Only those who cannot wear silver jewelry may experience a reaction to NANO Ag+ Silver Solution. You cannot take too much or overdose. It will not harm you or cause a condition called Argyria (silver skin).

St. George NANO Silver will not be effective if taken orally with other vitamins, minerals or herbs. It can be ingested one hour prior to or after taking other supplements. For external uses, it should be applied to clean skin. Lotions or other skin care products can be used after the St. George NANO Silver dries.

St. George NANO Silver is Pet friendly. It is safe to use on all pets (except fish).

USES:

There are literally thousands of essential uses for this odorless, nearly tasteless, colorless, totally benign, powerful, non-toxic healing agent.

Emergency Water Purification:

All 72 hour Emergency kits should include St. George NANO Silver. It can be used for water treatment and is the first line of defense for epidemics, plagues and chronic diseases. Use 5 drops per quart of filtered water, or 2.5 oz to 50 gallons. Mix thoroughly and wait 20 minutes before using.

St. George NANO Silver can be used both internally and externally for general health from head to toe, physical conditions and personal hygiene.

For Physical Health:

Scalp-Use for Dandruff, head sores, and skin irritations.

Ears-Use for all infections of the ear, ear mites, and itching of the ear canal.

Eyes-Use for all eye infections such as herpes of the eye, Pink eye, sties and irritation due to allergies. It is the best eye drop you can buy.

Nose/Sinus-Use for all sinus infections (bacterial and viral) and nose irritations including those due to allergies. It is the best nasal spray available.

Mouth-Use to relieve Gingivitis, Cankers, Sores, Thrush (yeast), tooth decay, abscessed tooth, infections, and tooth aches, etc.

Throat-Use to relieve sore throats and Strep infections.

Lungs-Use for all lung problems including Bronchitis, COPD, Pneumonia, Sarcoidosis, Valley Fever, and Hanta Virus.

Feet-Use for Athletes foot, split heels, toenail fungus, and blisters.

Skin-Use externally on cuts, wounds, abrasions, rashes, sunburns, insect bites, after shaving, Rosacea, acne, blisters, boils, burns, and to treat conditions such as MRSA, Herpes, Shingles, cold sores, diaper rash and pre cancer. St. George NANO Silver will heal all wounds and should be used on bandages and dressings to prevent infections and the formation of scar tissue.

Internally-Use for all soft tissue infections, flu, food poisoning, Candida, urinary tract infections, intestinal infections, diarrhea, Cholera, Meningitis, Plague, Chronic illnesses, Lupus, Fibromyalgia, Neuropathy, Arthritis, liver disease and kidney disease.

**See Instruction sheet for the use of St. George NANO Silver for specific conditions.

Home Uses:

St. George NANO Silver is the first line of defense in the home against all infectious diseases. May use it in shower stalls, bird baths, swamp cooler water, pet water, water for cut flowers, fountains, humidifiers, hot tubs, kiddie pools, electric shavers, toilet seats, tile floors, door knobs, telephones, hearing aids, head phones, shoes, gloves, dentures and to wash mildew from laundry. Use it on any surface that need protection.

Mist kitchen sponges, towels, cutting boards and other items to eliminate E-coli, Salmonella, Listeria, and Botulism bacteria to prevent food poisoning and gastrointestinal inflammation.

Add to water to bathe, douches, colon irrigation, dental water pic, oxygen machines, and humidifiers. Use full strength as nasal spray, eye drops, ear drops, deodorant and to gargle.

Rinse fruits and vegetables before eating, storing or cooking. Spray on top of contents of open jams, jellies, condiment containers and inside lids.

St. George NANO Silver will safeguard most anything from tooth brushes and children's toys to surgical instruments from harmful bacteria.

Unlike pharmaceutical antibiotics St. George NANO Silver never permits strain-resistant pathogens to

evolve. You will find that a spray or misting bottle of St. George NANO Silver maybe the most useful health enhancement tool in your life and environment.

Regeneration of Cells:

St. George NANO Silver is doing healing not seen with colloidal silver and other silver products. It penetrates the skin, gums and other soft tissues and is absorbed into the blood stream quickly because of the nano particle size and is able to remove infectious diseases.

With a virus, it destroys the internal electric fields and causes the DNA to complete itself thus destroying the virus. (Note: all viruses have incomplete DNA which is part of the virus structure.)

When St. George NANO Silver is present in or on a cell, it causes the DNA to normalize for that cell thus causing damaged cells or infected cells to revert to normal or become healthy cells. When this happens with burns, especially 3rd degree burns, the repairing cells become healthy skin and not scar tissue resulting in reduced overall scarring.

When in vitro testing of silver against multiple stains of cancer, 10% of the cells did not die but reverted to normal cells as the DNA reverted back to normal cell DNA. We see the DNA regeneration in other real life situations such as Arthritis and Neuropathy and in lung tissue damaged by COPD.

WARNING Do not buy silver solutions made with Silver Nitrate, Silver Compounds, Organic Bound Silver or Solutions with 100 PPM to 5000 PPM of silver because they will cause Argyria (silver skin).

Please let us know how St. George NANO Silver has helped you. Contact us at:

ST. GEORGE NANO SILVER

Instructions for Use for Specific Conditions

GENERAL DIRECTIONS:

***For Internal Use** - St. George NANO Silver should be swished then held in the mouth for at least one minute in order for the silver to be absorbed into the blood stream through the capillaries of the mouth and then swallowed. Do not ingest NANO Silver within one hour of taking any other medication or supplements. A standard dose of one tablespoon is based on a 150 lb adult. Adjust dose accordingly for larger adults and children. According to research studies, NANO Ag+ Silver solution does not produce poisonous compounds in the body so you cannot overdose on St. George NANO Silver. Those who cannot wear silver jewelry may experience a reaction to a NANO Ag+ Silver solution.

For External Use - NANO Silver should be applied to clean, bare skin then allowed to dry for full absorption into the skin.

ABSCESS: For abscess of the mouth, take one tablespoon of NANO Silver internally*. Repeat three times a day. For a small skin abscess, simply saturate a band-aid with NANO Silver and place over the abscess. For a large abscess, clean the abscess with a rinse using NANO Silver on the wound. If it requires a bandage, soak the gauze bandage in NANO Silver and cover the abscess. Repeat four times a day.

ACNE: Take one tablespoon of NANO Silver internally*. Repeat twice a day. NANO Silver should also be applied to the affected area twice a day. You can expect to see an improvement within 24 hours. Note: It takes about four weeks for new skin to regenerate from below the surface.

AGE SPOTS: Mist NANO Silver onto the age spots two to four times a day. Allow to dry before applying skin care products.

ANTIBIOTIC ALTERNATIVE: Take one tablespoon of NANO Silver daily internally*. Taking silver daily should destroy bacteria, viruses, fungus, parasites or yeast that cause the majority of illness. NANO Silver will not harm healthy bacteria such as probiotics.

ANTI-VIRAL: Take one tablespoon of NANO Silver two times a day internally*. Inhaling pure NANO Silver solution from a cold ultrasonic humidifier works best for viral infections of the lungs or sinuses. Pure NANO Silver solution can also be used in a nebulizer. Drops can be placed in your ears, eyes, nose or throat twice a day.

ATHLETE'S FOOT/FOOT ODOR: Thoroughly spray clean feet, making sure to saturate between the toes. Let dry for complete absorption. Repeat 2-3 times a day. If case is severe, soak feet in NANO Silver once a day for 15 minutes. Spray inside of shoes each night and let dry.

BED SORES: Apply NANO Silver directly to sores four times a day. You can expect improvement to begin quickly. Diabetics may take longer to heal because of problems with circulation.

BLACK MOLD: Black mold grows in wet areas of the home. It is mostly seen in shower stalls but can be found inside walls, etc. The mold releases spores into the air. If the spores reach your lungs, they will produce asthma and chronic fatigue like symptoms. To remove the mold, spray the NANO Silver on it and let it stand for 10 minutes before wiping it off. This will destroy the mold and help to prevent it from re-growing.

BLADDER INFECTION (UTI): Take one tablespoon of NANO Silver four times a day for the first three days internally*. Continue to take one tablespoon of NANO Silver internally* twice a day for next two weeks.

BODY ODOR: NANO Silver kills odor causing bacteria and helps control production of odor. Spray solution on affected area daily for a hypo-allergenic body deodorant. It is not an anti-perspirant.

BRONCHITIS: Take one tablespoon of NANO Silver four times a day internally*. Inhale NANO Silver from a cold ultrasonic humidifier for 5 minutes twice a day or a nebulizer for 15 minutes, twice a day. Also, use as a nasal spray for congestion.

BURNS: Spray NANO Silver on the burn or use to soak the burn four times a day. A reduction in pain, inflammation and tissue damage will be visible within the first hour.

CANCER: For those suffering with cancer, take one tablespoon of NANO Silver four times a day internally*. Sinus, throat or lung cancer patients may want to use an inhaled form NANO Silver. One ounce can be inhaled from a nebulizer 30 minutes a day. This allows the silver to come in deep contact with the lungs, bronchioles, and sinuses.

CANKER SORES: Take one tablespoon of NANO Silver in your mouth, swish thoroughly and hold for one minute then swallow. Repeat this process twice a day. Spray on canker and lips several times a day.

CARDIOVASCULAR DISEASE: Cardiovascular disease can come from a bacterial infection like strep throat or staph infection. Taking NANO Silver by mouth will kill the bacteria that can cause cardiovascular disease most commonly found in the gums.

CHILDREN: NANO Silver is safe for children to use. Children require a small dose when taken internally. A one tablespoon dose for adults is based on a 150lb person. Reduce dosage based on weight of the child.

CHICKEN POX/SHINGLES: These are caused by a Herpes virus. NANO Silver can be very beneficial in neutralizing the problem. It can also help with the associated blistering and scarring. Spray the affected area within four hours of the first outbreak and several times throughout the day. Often the treated blisters will not completely rise to the surface and scarring will be reduced. Take one tablespoon of NANO Silver internally* twice a day. Follow the same directions if you may have been exposed to Chicken Pox.

COLD SORES: Cold sores are also caused by the Herpes virus. At the first indication of a forming cold sore, dab with a saturated cotton ball or Q-tip or spray NANO Silver on the affected area several times a day.

COLDS: Colds are a virus. A cold gets into your nose and sinuses and starts to duplicate there, producing a lot of mucus. Mucus contains the virus or bacteria. Take one tablespoon of NANO Silver internally* three times a day. Spraying NANO Silver intra nasally four to five times a day will help reduce congestion and inflammation. Using NANO Silver as ear drops, eye drops, and throat spray can all be beneficial as well.

COLITIS, IRRITABLE BOWEL SYNDROME AND DIVERTICULITIS: Take one tablespoon of NANO Silver internally* twice daily to kill the yeast that causes these ailments.

CONJUNCTIVITIS (Pink Eye): NANO Silver is the best eye drops you can buy. Place two or three drops of NANO Silver directly into the eyes four times a day. The pain should go away within hours. Drink one tablespoon twice a day for one week or until the infection is cleared. Spray hands, face, eyes and bedding to prevent the spread of bacteria.

CROHN'S DISEASE/CELIAC DISEASE: Take one tablespoon of NANO Silver internally* four times a day. Continue taking one tablespoon of NANO Silver internally* two times a day thereafter to destroy the three potential causes of the symptoms. NANO Silver is very good at destroying pathogens without inflaming the immune system.

CYSTS: Take one tablespoon of NANO Silver internally* twice a day. Also, apply NANO Silver directly to the cyst four times a day.

DIARRHEA/DISENTERY: Take one tablespoon of NANO Silver internally* every hour for the first 4-6 hours and then reduce to a one tablespoon dose taken in the morning and at night. You should see an improvement within the first four hours.

DIAPER RASH: Clean the affected area as best you can. Spray NANO Silver onto the affected area and let dry. Repeat as necessary. The silver will kill the cause of diaper rash within the first two hours. The redness and pain will improve in as little as five minutes in mild cases. To prevent diaper rash, you can spray the NANO Silver on the inside of the diaper two minutes prior to using.

EAR INFECTIONS: Slightly warm NANO Silver. Tilt head so that affected ear is pointing upward. Use a dropper to fill the ear canal with NANO Silver. Keep in ear for 1-2 minutes. Repeat in other ear if needed. Repeat the process in infected ear(s) every 12 hours as needed. Also, take one tablespoon of NANO Silver internally* twice daily for several days.

ENDOMETRIOSIS: Take one tablespoon of NANO Silver internally*, twice daily. Two ounces of NANO Silver can be used as a douching solution used inter vaginally to kill bacteria and viruses in and around the cervix.

EPSTEIN BARR: Epstein Barr virus causes mononucleosis and chronic fatigue syndrome. NANO Silver has the ability to destroy viruses. Take one tablespoon internally* four to six times a day for two days. Reduce to one tablespoon internally*, twice a day for the next five days.

FEVERS: To break a fever, take one tablespoon of NANO Silver internally* every two hours until the fever breaks (up to eight hours).

FIBROMYALGIA: Fibromyalgia is an autoimmune disorder with multiple symptoms. The cause has not been identified. However, yeast seems to be a common factor. Yeast can be destroyed by taking one tablespoon of NANO Silver internally* two to three times a day. Spray solution onto sore muscles to relieve aches and pain.

FOOD POISONING: Drink 2 oz of NANO Silver internally* immediately, followed by one tablespoon every two hours for the next eight hours. For prevention, take one tablespoon internally* after a meal where you suspect a problem. It is especially helpful when traveling in a foreign country. You can actually spray NANO Silver onto suspect food two minutes prior to ingesting.

FLU: Gargling for one to two minutes with NANO Silver then swallowing, three times a day at the first sign of illness can help with the onset of the flu and reduce the severity of symptoms. Once the flu has set in, it is harder to combat. Like treatment for the common cold, preventative treatment is best. Consider regular consumption of one tablespoon of NANO Silver internally* per day during flu season.

GASTRITIS/GAS: NANO Silver can help because it destroys bacteria that cause gas. If you have a gas outbreak, including painful air pressure in the intestines, take one tablespoon internally* every two hours for the first few hours.

GENITAL HERPES: Spraying NANO Silver on the affected area can help the outbreak improve more quickly. In addition, take one tablespoon of NANO Silver internally* twice daily. Daily silver use will also help to prevent future outbreaks.

GINGIVITIS/BAD BREATH: NANO Silver can be sprayed on to dental floss prior to use to disinfect. Swish one tablespoon in the mouth after flossing to kill all bacteria and viruses in the mouth.

HEPATITIS: Hepatitis is very difficult to treat but NANO Silver can be used in high doses to be beneficial. Take one tablespoon of NANO Silver internally* 4-6 times a day for the first two weeks, and then take one tablespoon internally* twice a day for the next 3 1/2 months. This is a 4-month attack on hepatitis. The liver numbers were reduced to near normal in one month, back to normal in two months and symptom free in four months.

HUMAN PAPILOMA VIRUS (HPV): To reach the cervix, use two ounces of NANO Silver to douche intra vaginally. Try to hold for several minutes to allow time for the silver to destroy the virus.

IMPETIGO: Impetigo is a bacterial infection of the skin that shows as blisters usually around the mouth. Take one tablespoon of NANO Silver internally* twice a day and more importantly, spray the affected area four times a day. By keeping impetigo moist with silver, it will spread less and improve much quicker. Impetigo is highly contagious so you will want to spray NANO Silver on your hands as well.

INFLAMMATION: Take one tablespoon of NANO Silver internally* twice daily and spray the inflamed area as needed. Sometimes an inflammatory response is found around an open wound like a MRSA or staph infection. In this case, spray every two hours daily.

ITCHING & SCALING: NANO Silver will reduce pain, inflammation, itching and scaling. NANO Silver can be used to treat poison ivy, poison oak and stinging nettle.

JOCK ITCH: Spray NANO Silver on affected area twice daily.

KERATOSIS: Many people have pre-cancerous lesions from sun damage on their shoulders, chest and face. It presents itself as dry, flakey skin spots or small, reddened, inflamed areas on the skin for years before it becomes a skin cancer. Take one tablespoon of NANO Silver internally* twice daily. Spray NANO Silver on the area twice daily.

KIDNEY DISEASE: Take one tablespoon of NANO Silver internally* four times daily. This high dose is necessary because it needs to pass through the kidneys on a regular basis, helping to bring the kidney infection under control in as little as 12 hours.

LIVER DISEASE: The liver is one of the most important organs on the body. It detoxifies the blood and secretes over 4000 enzymes. When the liver is inflamed, like in the case of hepatitis, it won't secrete as many enzymes and the blood will not be purified quickly. NANO Silver can destroy the bacteria and viruses that harm the liver. By restoring proper liver function, all systems of the body will benefit and overall health is increased. Take one tablespoon of NANO Silver internally* four times a day.

LUPUS: NANO Silver can be used to kill the bacteria, viruses, mold and parasites that may be the cause of Lupus. It will do this without making the symptoms of Lupus worse. Take one tablespoon of NANO Silver internally* three times daily and apply silver to facial rashes commonly cause by Lupus.

MOLD/FUNGUS: Take one tablespoon of NANO Silver internally* three times daily. Apply externally to affected areas four times daily. This dosage should be continued at least two weeks longer than symptoms are present. You can expect to see a benefit within the first 30 minutes. It will take at least 10 minutes for the NANO Silver internally* to kill a fungal infection on the skin.

MRSA (Methicillin Resistant Staph Aureus): To prevent these infections, take one tablespoon NANO Silver internally* twice daily and spray NANO Silver on infected area and hands at least twice daily.

PARASITES: NANO Silver can kill most parasites. It is especially effective in the intestines, in the blood, and with leishmaniasis. NANO Silver will need to be used for three months, as the lifecycles of each generation of parasites is about 45 days. During this time, take one tablespoon of NANO Silver internally* twice daily

PET USE: NANO Silver is safe to use for your pet, internally and externally. If a pet weights 20 lbs, it should receive 1/4 of the human dosage.

PNEUMONIA: Take one tablespoon of NANO Silver internally* four times a day; 15 minutes of inhalation from a cold ultrasonic humidifier or nebulizer, and intra nasal spray twice a day to remove congestion. You should see improvement within the first 12 hours.

POST SURGICAL: Surgery open the possibility of infection in wounds, stitches, and incisions. Hospital acquired MRSA is one of the most dangerous infections you can get. NANO Silver should be applied to the wound,

stitches, and the surrounding area immediately after surgery. It will prevent infection, help with healing and reduce scarring.

PROSTRATE DISEASE: Take one tablespoon of NANO Silver internally* twice daily so that you will have enough silver circulating in your system to go through your urine and kill the bacteria in your bladder and prostate.

PSORIASIS: Spray NANO Silver onto affected area 3-4 times a day, keeping skin, wounds or rashes very moist. Take one tablespoon of NANO Silver internally* twice daily.

PUS: Spray NANO Silver to affected area four times a day and take one tablespoon of NANO Silver internally* two times daily. If pus is being produced in your throat, e.g. strep throat, swish your mouth with silver for one to two minutes and swallow.

PYORRHEA: Gum disease can be prevented by rinsing your mouth with one ounce of NANO Silver for 1-2 minutes each day and swallowed. best if used immediately after brushing your teeth.

RASHES: Spray NANO Silver right on the rash, you will moisturize, detoxify, and quicken healing. Apply 3-4 times a day and take one tablespoon of NANO Silver internally* twice daily

ROSACEA: Take one tablespoon of NANO Silver internally* twice a day and apply NANO Silver to the affected area four times a day. Wash the area lightly between each application. You should see a reduction of redness within the first two hours and a reduction of pimples in the first day.

SORE THROAT: To kill bacteria that cause pus, swollen tonsils, and red spots in the back of your throat, rinse/gargle your mouth/throat with one ounce of NANO Silver for 1-2 minutes three times a day. Allow a small amount to trickle down the back of your throat and swallow every 30 seconds. Swallow the remainder when you are done. Spray NANO Silver into your nasal cavity as needed for sore throat, congestion, or post nasal drip. Sinuses and throat need to be treated simultaneously so one does not infect the other.

THYROID DISEASE: Take one tablespoon of NANO Silver internally* twice a day and applying NANO Silver to the throat will result in significant thyroid benefit.

TOENAIL FUNGUS: NANO Silver will kill toenail fungus within minutes of coming in contact. The problem is getting underneath the nail. If possible, get through the nail and clear out as much fungus as possible with a blunt instrument. The toenail fungus can then be treated by soaking the toe in NANO Silver for several minutes every other day. You may need to file down the top layer of the nail until it becomes water soluble. This will allow the NANO Silver to reach the fungus to kill it. It will take several months for the nail to grow out completely.

TONSILLITIS: Rinse/gargle with one ounce of NANO Silver for 1-2 minutes each day, then swallow. Repeat more often for serious tonsillitis flare ups. Spraying silver into the nostrils will also help. The more contact the silver has with the back of the throat, the faster it will work.

TONGUE: Rinse/swish with one ounce of NANO Silver for 1-2 minutes then swallow, repeat twice a day.

TOOTH DECAY/CAVITIES: Brush and floss teeth. Spray 5-6 pumps of NANO Silver into mouth, swish thoroughly concentrating on the decaying tooth, then swallow.

TUBERCULOSIS: Take one tablespoon of NANO Silver internally* twice daily and inhale from cold ultrasonic humidifier or a nebulizer for 30 minutes each day. You will affect the tuberculosis in both the lungs and in the blood stream. Tuberculosis is not easy to beat. The dosage of NANO Silver may need to be followed for weeks or months.

ULCERS: Take one tablespoon of NANO Silver internally* 3-4 times a day. It can enter the stomach and destroy the bacteria causing the ulcer. It should take two weeks to get the H.pylori under control, but treatment should be continued for at least a month. H.pylori can return just by having poor hygiene, eating out at restaurants, or not washing your hands.

VAGINAL ODOR: Use NANO Silver as a douche by pumping 2 ounces of silver inter vaginally, holding it for several minutes and releasing. Apply silver to a tampon and insert into the vagina. Spray NANO Silver onto outer areas of the vaginal opening and/or onto panty liners.

WARTS: Take one tablespoon on NANO Silver internally* twice daily. It will circulate in the bloodstream. For quicker, more complete results, pare down the wart with a sharp instrument. Warts do not have pain receptors. When you feel pain, you've reached the skin. Apply silver to exposed portion of the wart with a cotton ball saturated in NANO Silver and tape in place.

WATER PURIFICATION: Use 5 drops per quart of filtered water or 2.5 oz to 50 gallons.

WOUND HEALING: Apply NANO Silver to any wound 1-4 times a day. By keeping the wound moist, it will improve quicker healing and reduce scarring. Take one tablespoon of NANO Silver internally* twice daily.

YEAST: NANO Silver has been documented to kill yeast inside and outside of the body. Take one tablespoon of NANO Silver internally* twice daily. Take one tablespoon of NANO Silver internally* daily for prevention. Also, spray effected areas with NANO Silver several times daily.

St. George Medicinal Herb Company St. George Silver Sol NANO Ag+ Silver Solutions Uses

Regeneration of Cells using St. George NANO (Ag+) Silver particles.

With the Silver Sol NANO Silver Ag+ we did not have a lot of prehistory information. The NANO Silver Ag+ is doing healing not seen with colloidal silver and other silver products. It penetrates the skin, gums and other soft tissue quickly, and kills infectious disease quickly.

With a virus it destroys the internal electric fields and causes the DNA to complete itself thus destroying the virus. Note(All virus have incomplete DNA which is part of the virus structure).

When NANO Ag+ silver is present in or on a cell, it causes the DNA to normalize for that cell thus causing damaged cells or infected cells to revert to normal DNA Cells.

With Burns and especially 3rd degree burns. When silver is present the repair cells revert to normal DNA and the repairing cells become skin and not scar tissue.

When in vitro testing of silver against multiple strains of cancers, 10% of the cells did not die but reverted to normal cell as the DNA reverted back to normal cell DNA .

We see the DNA regeneration in other real life situations with Burns of the skin, Facial tissue, Cancers, Lung damage(COPD), Arthritis, and Neuropathy,

ARTHRITES:

Our first indication of arthritis relief came from a phone call from a lady in Arizona. She started to spray her knee for a rash then the pain from the arthritis stopped. Then we received 3 more calls from other users that their arthritis pain had stopped. Then 6 more calls, and so I started doing some research.

The medical profession declares Arthritis is an autoimmune disease. Linus Pauline 2 time Nobel Medicine prize winner insisted that Arthritis was an infectious disease, and then went onto prove it. The Pannus associated with Arthritis contains bacteria, Osteoarthritis has different bacteria in the Pannus than the Rheumatoid Arthritis Pannus has, but both have a bacterial/viral infection. If Arthritis is an infection it would explain why the NANO Ag+ Silver particles are working at healing and relieving the pain. NANO Ag+ Silver particles are also anti-inflammatory

I decided to try in on my own knee, My left knee was injured while working on my roof a year before. I could not kneel down because it hurt under the knee cap. I started by spraying all around my knee twice a day and let it dry. I did this for 2 weeks then started to spray once a day in the morning after a shower. After 2 months my knee stopped hurting and I could kneel down again without pain. An interesting side note was that when I walk my knee does not click anymore and I feel like I have more cushion in my cartilage. For me the NANO Ag+ Silver worked.

Protocol for Arthritis:

1. Take orally 1 tablespoon of St. George NANO Silver hold it in mouth and under your tongue for 60 sec. Then swallow it. Do this twice a day. 2. Spray NANO Silver on the effected joints or hands completely covering them, then let dry. All silver that will penetrate will be complete . You may then wash or take care of daily activity. Do this twice a day for 2 weeks then once a day thereafter.

St. George Medicinal Herb Company St. George Silver Sol NANO Ag+ Silver Solutions Uses

Regeneration of Cells using St. George NANO (Ag+) Silver particles.

With the Silver Sol NANO Silver Ag+ we did not have a lot of prehistory information. The NANO Silver Ag+ is doing healing not seen with colloidal silver and other silver products. It penetrates the skin, gums and other soft tissue quickly, and kills infectious disease quickly.

If Arthritis is an infection it would explain why the NANO Ag+ Silver particles are working at healing and relieving the pain. NANO Ag+ Silver particles are also anti-inflammatory

I decided to try in on my own knee, My left knee was injured while working on my roof a year before. I could not kneel down because it hurt under the knee cap. I started by spraying all around my knee twice a day and let it dry. I did this for 2 weeks then started to spray once a day in the morning after a shower. After 2 months my knee stopped hurting and I could kneel down again without pain. An interesting side note was that when I walk my knee does not click anymore and I feel like I have more cushion in my cartilage. For me the NANO Ag+ Silver worked.

Protocol for Arthritis:

1. Take orally 1 tablespoon of St. George NANO Silver hold it in mouth and under your tongue for 60 sec. Then swallow it. Do this twice a day. 2. Spray NANO Silver on the effected joints or hands completely covering them, then let dry. All silver that will penetrate will be complete . You may then wash or take care of daily activity. Do this twice a day for 2 weeks then once a day thereafter.

NEUROPATHY:

Neuropathy - also known as peripheral neuropathy/polyneuropathy - means damage to nerves in the peripheral nervous system, and so affects nerves outside of the brain and spinal cord. Three main types of nerves can be involved, Autonomic nerves (not under conscious control, "automatic" or "involuntary" nerves), Motor nerves, and Sensory nerves. People often describe the pain of neuropathy as being a tingling or burning sensation. They also often describe a loss of sensation similar to what it would be like wearing a thin stocking or glove.

The NANO Ag+Silver treatment with Vitamin C is designed to repair the damage cell and restore blood flow to the area.

Protocol for Neuropathy:

1. Take orally 1 tablespoon of St. George NANO Ag+ Silver hold it in mouth and under your tongue for 60 sec. Then swallow it. Do this twice a day.
2. Take 3000 to 4000 units of Vitamin C per day (1000 units 4 times a day). The Vitamin C will help clear the capillaries and get blood to the area.
3. Spray Silver Sol on the effected areas completely covering them, then let dry so that all silver that will penetrate will be absorbed.
4. Optional take Nattokinase (cannot be taken with Coumadin) You may Take 2 Capsule of Nattokinase each day, it will dilate the arteries and capillaries and help flush out the material thus increasing blood flow.

HERPIES:

St. George NANO (Ag+) Silver has successfully healed Herpes infections. We have customers who have healed Herpes of the blood, Herpes of the Eye., Cold Sores, and Shingles.

SHINGLES:

The Herpes virus is already inside you and will break out in various places. Shingles is a rash on the skin and generally is very painful. If you spray silver on the rash when it first appears and every 4 hours there after you can get rid of the shingles in a short time. Shingles is problematic in that every day that it goes untreated it will take minimum of 3 days added for each untreated day to be healed (IE. 5 days untreated $\times 3 = 15$ days to get it healed) people who have had shingles for some time may still have itching, burning, and future outbreaks of new rash or bumps. The NANO (Ag+) silver will still help these sufferers by stopping the itching, burning and new rashes.

Protocol for Herpes Virus

1. Take orally 1 tablespoon of St. George NANO (Ag+) Silver hold it in mouth and under your tongue for 30 to 60 sec. Then swallow it. Do this up to 4 times a day. 2. Spray NANO (Ag+) Silver on the effected rash or bumps completely covering them, then let dry. All silver that will penetrate will be absorbed. You may then wash or take care of daily activity. Consider spraying just before bedtime to stop the pain or itching and help you get some rest.

Herpes of the eye's: put 2 drops in each eye 4 times each day until healed.

Cold Sores: spray 4 times a day or when ever you feel any pain or swelling of the lip.

Herpes in the Blood : Please Call 435-652-9012 for information.

Most reports are from the experience of those using the product and no lab testing has been done yet. Those who have tried it and been healed feel that it was successful. TRY IT and let me know.
