"Montezuma's Revenge" Biden Style  
Illegal Alien Sanctuary Facility Identified in Montgomery County  
American Citizen Falsely Charged in Alien Death - Please Donate!**

**HELP SAVE MARYLAND!**

HSM Director Brad Botwin briefs a large audience of Potomac Women Republican Club members on the latest economic, financial, and social atrocities caused by Montgomery County, Maryland's illegal alien sanctuary policies and total disregard for the rule of law (see photo above).

**"Montezuma's Revenge" Biden Style**

There was actually little press coverage (thank goodness for Fox News) of the January 9-10 meeting of the North American Leaders' Summit - Mexican President Andres Manuel Lopez Obrador (AMLO), Canadian Prime Minister Justin Trudeau, and President Joe Biden. Usually a harmless get together to slap the flesh/photo op with our neighbors north and south, this year's event was dominated by the anti-American rhetoric of AMLO and the doormat responses of Biden regarding our Southern border. If there still is a Southern U.S. border!

AMLO had the chutzpah to state that Joe was the first U.S. President in memory that has not built even one meter of border wall to secure the border, and he was thankful for that! And if Texas Governor Abbott and conservatives nation-wide were angry about that, too bad.

I recall during the Trump Administration that ALMO was not such a brave soul. President Trump had suggested that Mexico might want to dramatically slow the flood of illegals crossing from Mexico into the U.S. For incentive Trump nicely mentioned possible tariffs on all Mexican goods entering our country if no action was taken. And just like that, the Mexican Army and National Police were out in force blocking illegal aliens from crossing into our country. Imagine that.

But President Biden has taken a different tack. Biden stated "There can no longer be any question, none, in today's interconnected world. We cannot wall ourselves off from shared problems".

What is he talking about? Millions of illegals pouring into the U.S. unimpeded in the last two years and this is a shared problem? It's a purely AMERICAN problem. Biden even stated at the Summit that "We're trying to make it easier for people to get here." Mission Accomplished Joe, and frankly Biden should be impeached and removed for letting this happen.

Comrade ALMO also recommended to Biden that the "U.S. Congress should regularize the migration situations of millions of Mexicans who have been in the U.S. working, living and contributing to the development of that great nation". ALMO also thinks Mexico, a narco-state, is safer than the U.S. This despite the fact Mexico has 17 of the top 50 violent cities in the world (see [www.Helpsavemaryland.org/Local-National-News](http://www.Helpsavemaryland.org/Local-National-News)).

Sorry ALMO, but America has had enough "Montezuma's Revenge" for a lifetime. Seal the border (with Canada too), enforce the law, and deport those with no legal standing back to their homelands. Best for illegals to actually discover and use the legal method of emigrating to the U.S. That is what you call "safe, orderly, and humane migration".

Maybe if we tell the Democrats that the Russians are coming across the Southern border looking for Ukrainians they will get excited and take action?

## **Is There a Theme Here?**

Biden and Democrats, with help from the United Nations, have no problem allowing Illegal Aliens to die on their way to America, be it by land or by sea. I liken this to Dems allowing citizens to die from Mexican/Chinese Fentanyl pouring in from Mexico. Also seems to match with Dem policies in our big cities, where black on black carnage rages unimpeded.

## **Three House GOP Torpedo Tough Immigration Legislation - Call Their Offices!**

Rep. Anthony Gonzales (R-Texas) called the immigration measure “not Christian” and “anti-American,” falsely claiming it would ban asylum claims. Reps. Don Bacon (R-Neb.) and Maria Salazar (R-Fla.) (who supports amnesty for the tens of millions of illegal immigrants in the U.S.) also expressed public opposition.

Contact these 3 wrong-thinking GOP Representatives and tell them to support tough GOP Legislation to end the invasion and deport those who entered without going thru the legal immigration process from their home countries.

## **Ten-Year Backlog for Illegal Alien Court Cases in U.S.**

Between Biden policies to let illegals hang out in the U.S., often with no tracking of their location, combined with the 10-year backlog of cases where illegals try to con the courts with amnesty requests, there is plenty time for mischief and anchor baby creation!

### **Citizens of East Palestine, OH vs Illegal Aliens**

Not sure the citizens who live in East Palestine, Ohio are being given access to a "One-Stop Shop" of services and benefits to help them get through the horrible disaster caused by the train derailment and toxic chemical leaks in their community.

But you can always count on the Biden junta to make it as easy as possible for illegal aliens granted or being granted asylum, even when we know their applications are fake.

"Goodies" include employment authorization and assistance, Social Security cards, cash, medical assistance and permanent resident status.

What a scam and what a slap in the face to East Palestine and all Americans!

### **MoCo Safe House for Illegals Bused from the Border**

The Montgomery County hideout for illegal aliens bused in from the border is located on Seven Locks Road, just past the County Detention Center. For some reason Illegals, unlike those in detention, get to come and go as they please. Muchas Gracias! This facility is in addition to local hotels and other buildings and safe houses funded by the county.

Thanks to multiple supporters of Help Save Maryland for tracking down this long-term "temporary" facility to aid and abet illegal immigration. All funded by you and me!

Look who is back in the news. Former Montgomery County Police Chief, Tom "Barney Fife" Manger. Manger was never concerned about any illegals in MoCo, despite the rapes, crime and MS-13 gang activity. Just happy to collected his paycheck and pension.

Now amazingly head of the Capitol Police in DC with its fat paycheck, Manger is complaining that Tucker Carlson is releasing the unseen videos of January 6, thus making a mockery of the so-called Insurrection. Manger could never handle the truth no matter where he is working!

### Black Community Waking Up?

In response to the fact that the Memphis Police officers involved in Tyre Nicolas' death were black, NBA Player LeBron James, also black tweeted:

Ignore LeBron's poor English skills, but do notice that he finally figured things out. If only the black community at large could figure out Illegal Aliens are hurting their economic status nationwide.

### **NOTABLE QUOTE:**

"I am concerned that fraud surrounding Unaccompanied Alien Children (UAC) sponsorship is severe due to your department's lackluster policies and procedures to verify a sponsor's identity and relationship to the child. Children apprehended, transported, and processed alone are not safe from human traffickers, who may pose as sponsors once migrant children are flown throughout the country by the federal government."

"This is a clear failure that leaves migrant children vulnerable to human traffickers and provides criminals with an easy gateway into the United States. To ensure the record number of children at our southern border are safe and placed with properly vetted sponsors throughout the country, this Administration must provide more transparency into the policies and procedures surrounding UACs."

-- Republican Texas Rep. Lance Gooden
