"Mexican President AMLO Lectures Americans: Reject 'Conservatism,' Accept 'Transformation'"

Yet another reason to seal the Southern Border and treat Mexico like an unfriendly nation.

The Breitbart article notes that during a recent press conference with President Joe Biden, AMLO attacked "the conservatives" in the United States for their opposition to the administration's globalist agenda on energy, trade, and immigration.

"I know that your adversaries — the conservatives — are going to be screaming all over the place, even to heaven," AMLO said. "They're going to be yelling at heaven." "In the face of this crisis, the way out is not through conservatism," he continued. "The way out is through transformation. We have to be bold in our actions. Transform not maintain the status quo." Joe of course totally agreed.

We did not have this problem when Trump was President! Mexican leader AMLO knew his place on the totem pole, accepting the Trump "Remain in Mexico" policy which kept illegals in Mexico until they could make their fake asylum cases in U.S. court.

"Majority of Americans support military war against Mexican cartels"

No surprise here. Americans know Mexico is working against our national interests by allowing illegal aliens, and cartels with drugs, to pour into the nation unabated. This "military war" can't happen soon enough.

"A 15-year-old will lead one of many Florida marches protesting DeSantis' new immigration law"

Yes, only in America do we allow unlawfully present illegal aliens to protest against our federal, state and local governments with impunity.

We need ICE to stop processing and freeing illegals at the border. Instead ICE should be rounding up these unwelcome hordes like the 15-year-old for immediate deportation.

Governor DeSantis in Action Against Illegals in Florida

Aliens on the run. Protests will fail. Hopefully Maryland will follow this path in the near future.

The Biden Administration in Action

"Biden purges immigration judges appointed by Trump"

Even Black Immigration Judges are not safe from Biden's DOJ! If you stop illegals from entering freely as a judge, no matter how fake the asylum hoax they present in court, DOJ will penalize you.

<https://www.washingtontimes.com/news/2023/jun/21/doj-fires-black-immigration-judge-edwin-pieters-on/>

"Biden prioritizes illegal aliens' applications over those who came here lawfully"

The One Million true immigrants that go through the process legally each year are tossed to the back of the line by Biden lawlessness. Asylum, parole, DACA, Dreamers, call it whatever fake name you want, its an insult to Americans and legal immigrants.

Only properly screened and fully processed immigrants should be allowed to enter our country.

Putting dog collar like wrist bands on illegals at the border and letting them in is not screening. My son-in-law from the UK had to wait 13 months to get to America legally despite already being married to my daughter! DHS was busy processing and releasing illegals instead!

["Immigration and Public Schools" by www.CIS.org](#)

Another excellent study pulled together by the Center for Immigration Studies in DC!

As the study points out, Maryland is a disaster as illegals continue to pour into our state. The share of illegal alien/anchor baby households in Maryland public schools has risen from 9 percent to 29 percent (1990 to 2021).

Unfortunately, the CIS stats unfortunately only go through 2021 (latest available). With Biden's Open Border Policy, the numbers are even higher in 2022 & 2023, with no end to the invasion on the horizon. I can't imagine what the percent households will be in 2024.

<https://cis.org/Report/Mapping-Impact-Immigration-Public-Schools>

Montgomery County Public Schools - Schools are getting so bad in Montgomery County, Maryland that the Mayor of Gaithersburg (D) Jud Ashman, recently complained about Maryland's Comprehensive Assessment Program scores for 2022-2023.

Language proficient students - 14.4%, Mathematics proficient students - 13.2%

Ashman of course wants to throw more of our tax dollars money at the problem - smaller class sizes and more teachers. Not the answer as it does not solve the core problem in MoCo schools.

Over 25 Elementary Schools in Montgomery County have majority/super majority illegal alien/anchor baby populations (no diversity), and this is number is growing rapidly. Many of these schools right in Gaithersburg Mayor Ashman's backyard!

MoCo Middle and High Schools also have rapidly growing non-citizen/anchor baby populations.

NOTE: See article below regarding Free Healthcare for Pregnant Illegal Aliens in Maryland! Yet another government incentive for illegals to come to our state, crank out babies, and overwhelm our schools, hospitals and voter rolls).

The Montgomery County Public School "Solution"

To handle this human tidal wave of non-English speaking students, the Montgomery County Public School (MCPS) system has started a rapidly growing program called:

"Two-Way Language Immersion"

I call it, When You Can't Beat Them, Join Them!

Students in more than a dozen K-Grade 5 elementary schools are taught half-day in English (all subjects), and half-day in Spanish (all subjects).

Can you imagine our kids trying to learn Math or Science in Spanish?

It ain't happening. Call it "In School Spanish COVID". That is one half-day, 5 days a week our students can never get back.

The Spanish speakers are happy for half a day as many understand (somewhat) their native language, but they are still totally unprepared for Math or Science or Public School in general, no matter the language. No wonder testing scores continue to decline in MoCo.

See the Home Page at www.HelpSaveMaryland.org for more details on this **costly and dubious "Two-Way Language Immersion" program**, cooked up by MCPS, groups like CASA, and others with our tax dollars!

No Citizen or taxpayer group input was requested of course in the development of this program, and related programs. No worries, the bureaucrats and their paid support groups have it under control!

"To be very candid, the left are sick. If I have an opinion opposed to yours, all of a sudden I become the enemy. That whole school of thought, and then being a Black man, a New York prosecutor. The advocacy groups made it clear Biden should not be hiring from the background of prosecutors."

TAKE ACTION - See New Montgomery County Ballot Initiative

A Local Group is pushing a nonpartisan ballot initiative to mandate a maximum two-term limit for County Executive in MoCo. Similar to the term rules for President, MD Governor, and most County Executives state-wide. If enough signatures are collected, it will be placed on the 2024 ballot for all legal MoCo Maryland voters to decide. For more information see link below:
