Our Solutions

Using your existing cameras, our engineers can create custom video analytics that help solve your most complex problems

Public Safety

Solutions for public safety include facial recognition, vehicle identification, object detection and classification, weapons detection and more.

Work place safety

Detection of OSHA safety violations for safer work environments

Custom Solutions

Cameras are everywhere, we can make them smarter and provide better results using custom built video analytics for your needs.

Custom Built Video Analytics

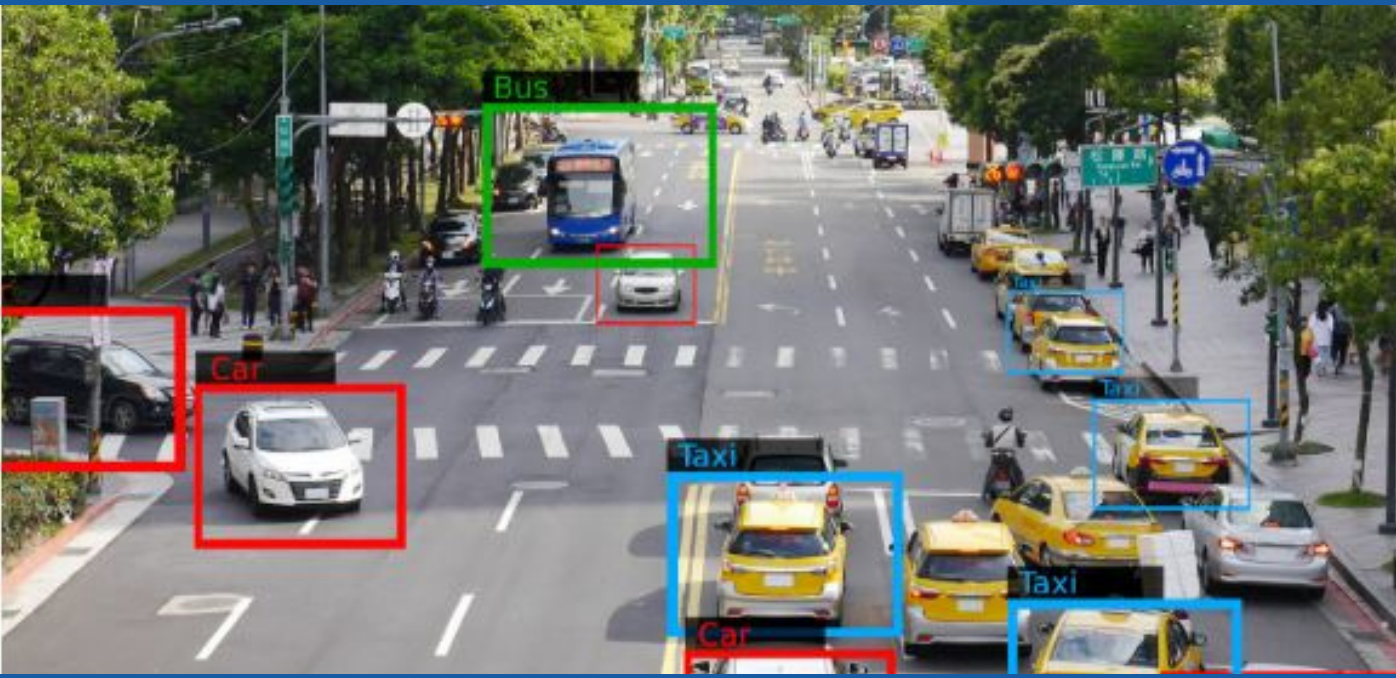

Whether it is work place safety, public safety, or business optimization, our engineers will work with you to provide a solution that fits your needs and budget.

Contact us to see how we can make your camera systems smarter and more efficient!

Dean Smith
Const Project Manager

"Video analytics has improved our job site safety and performance"

Lt. Sarah Deagan
Waynesville PD

"Video analytics helps us capture crime in real-time for faster, safer results"
