\$49/month Hosting & Maintenance Package Includes:

- 99.999% uptime - super secure cloud computing services powered by industry leaders Rackspace and AWS.
- We have multiple redundancies and do regularly scheduled back-ups for added security.
- Includes minor monthly website maintenance & revisions.
- Includes SSL Certificate providing authentication and encrypted connection to load on a 256-bit encrypted https: connection. Search engines flag sites without SSL certificates we provide them included in your package.
- Automated daily database backups are stored for 20 days.
- All inbound network traffic is restricted by firewall.
- Security updates are automatically applied to servers to protect against known security issues.
- Passwords are automatically hashed to prevent hacking.
- SEO Sitemap submission to Google and Bing to index your website-providing valuable website information for online Searches and your site rankings within search results.
- Ongoing website traffic analytics*
- Antivirus & Malware Protection - Web application is regularly updated to address vulnerabilities.

Breaking down the Monthly Hosting and Maintenance Charge and what it's all about:

1. Reliable Hosting and Uptime

- "The \$49/month fee includes reliable and secure hosting for your website with 99.999% uptime. This means your website will be available to visitors 24/7, with minimal downtime. We ensure your website is hosted on powerful servers that provide fast load times and can handle high traffic volumes, enhancing the user experience."

2. Security and Protection

- "Website security is crucial in protecting your data and your visitors' information. The monthly fee covers regular security updates, firewall protection, and monitoring for potential threats. We implement measures to prevent hacking, malware, and other cyber threats, giving you peace of mind."

3. Regular Updates and Maintenance

- "Just like any software, websites need regular updates to stay functional and secure. We handle all the necessary updates to the website's software, plugins, and systems. This ensures compatibility with new browser versions and devices, prevents issues, and keeps everything running smoothly."

4. Backups and Data Recovery

- "Included in the fee is a robust backup system. We perform regular backups of your website, so if anything goes wrong—such as accidental deletions or data loss—we can quickly restore your website to a previous state, minimizing downtime and potential loss of information."

5. Technical Support and Customer Service

- "Our fee includes access to expert technical support. Whether you encounter an issue or have questions, our team is available to assist you promptly. This support covers troubleshooting, guidance on using features, and quick resolution of any problems, ensuring your website is always in top shape."

6. Performance Monitoring and Optimization

- "We continuously monitor your website's performance, including speed and functionality. If there are any slowdowns or issues, we take proactive steps to optimize the website, ensuring it delivers a smooth and fast experience for your visitors."

7. Value for Money

- "When you consider the costs of separate hosting, security, backups, updates, SSL certificate, and support services, the \$49/month fee is a cost-effective solution that bundles everything you need. It saves you time and effort, as we handle all the technical aspects, allowing you to focus on your business."

8. Future-Proofing Your Website

- "Technology evolves quickly, and part of our service includes keeping your website up-to-date with the latest industry standards and technologies. This future-proofing ensures your website remains relevant, functional, and competitive over time."

9. Consulting & Knowledge Resource

- "We are available for consulting regarding your website, business and marketing strategy questions."

10. Full-Service Printing Resource

- "Current Website Clients receive Free Quotes and a 20% discount on all our printing and signage products."
