COME TOGETHER

The “outdoor greatroom” came from the idea that homeowners should enjoy their outdoor space as much as their indoor living space and that the comforts of indoors were to be enjoyed outdoors. This idea has been the foundation of our company and our inspiration to provide innovative products to those who like to entertain and live outside.

The Outdoor GreatRoom Company™ is your one stop shop to create your dream outdoor room.

about

Located in the heart of Minnesota, The Outdoor GreatRoom Company™ (OGC) manufactures unique, upscale products with design appeal for indoor and outdoor living spaces. Products include gas fire pits and gas fire tables, pergolas, outdoor kitchen islands, outdoor gas fireplaces, Gallery Collection indoor fireplaces and fireplace inserts, grills, outdoor patio furniture, accessories, custom fire products, and commercially-rated products.

HISTORY

In 1975, Dan and Ron Shimek had an inspiration for indoor gas fireplaces that changed an industry and became the foundation of Heat-N-Glo®. Brothers Steve and Gerry joined them and the rest (including over 50 patents) is history.

But the Shimeks were never ones to dwell on the past. They were forever looking forward. And as their vision grew sharper, they could see patios, decks and terraces becoming increasingly popular. That led to a new inspiration even more ambitious than the first: tomorrow’s homes would have two complete living rooms – one indoors, the other outdoors. Homeowners would be able to enjoy relaxing and entertaining guests in the fresh air with all the elegance found indoors. That inspiration led Dan to launch the first company of its kind in 2003: The Outdoor GreatRoom Company™ – a company dedicated to an exciting new concept “the outdoor greatroom.”

MISSION

To bring family and friends together by redefining both the indoor and outdoor living experience through innovative products and people.

what is an outdoor greatroom?

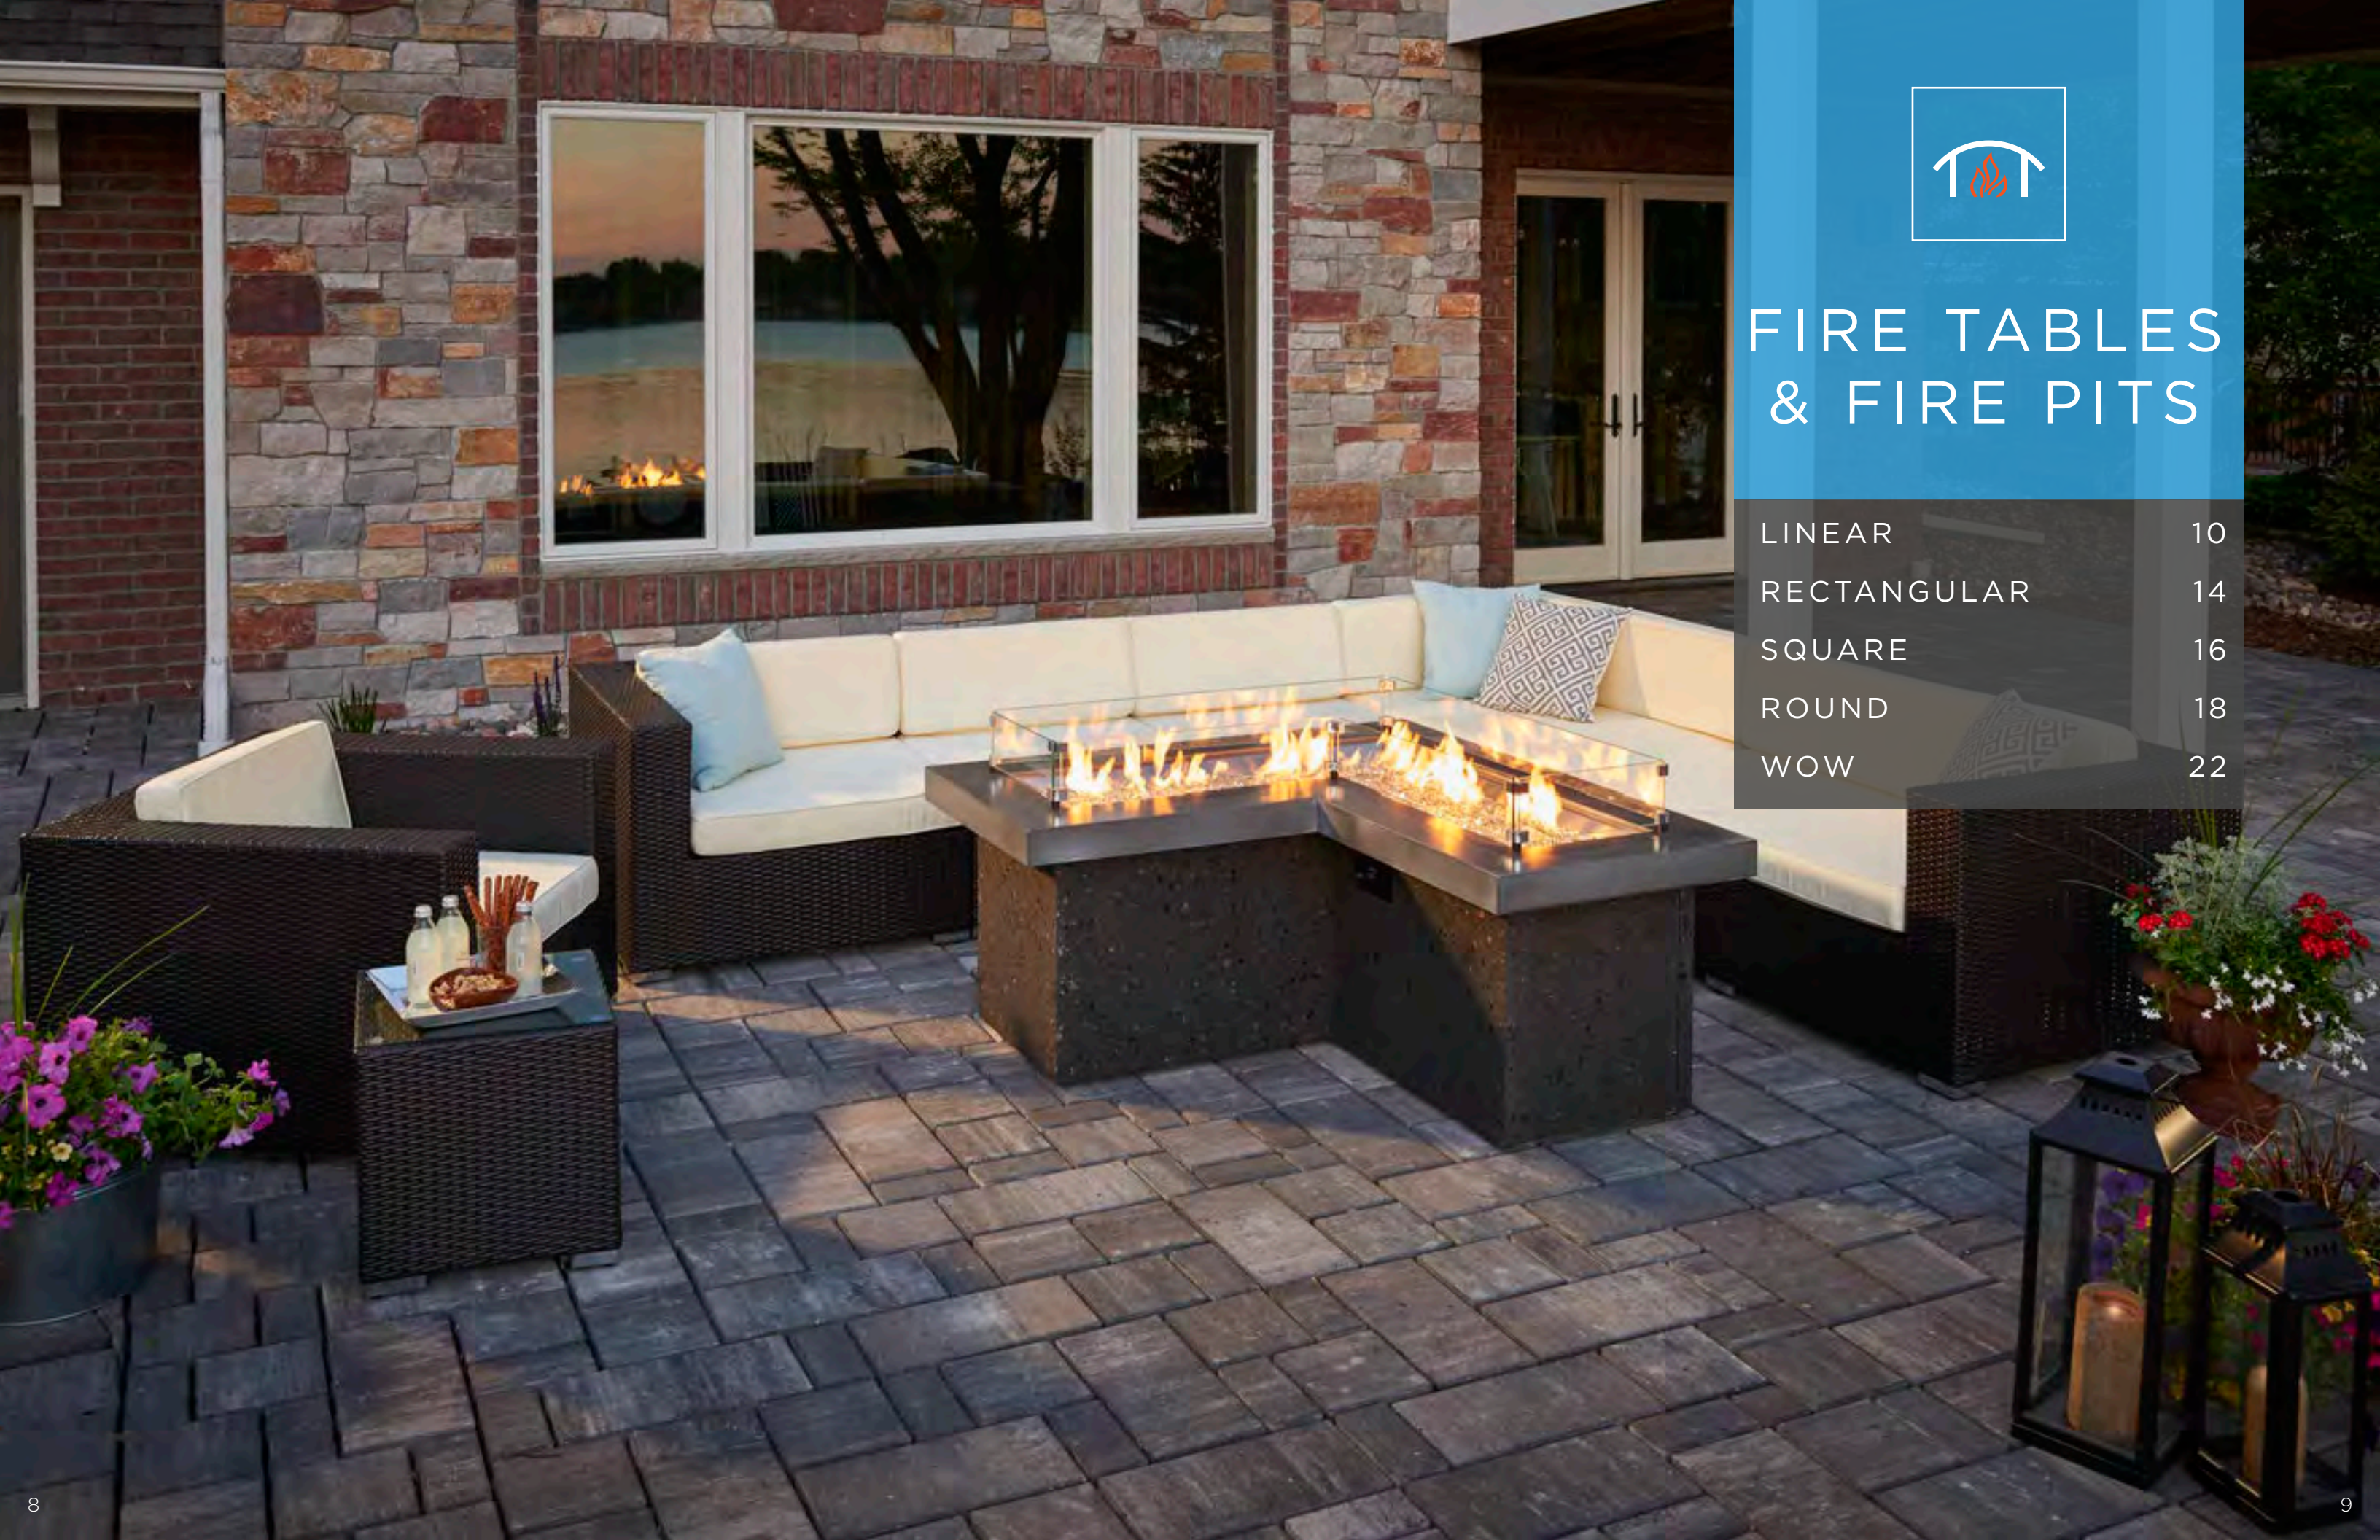

why o g c ?

OGC is focused on bringing the best and safest products to the market. That's why we have a team with over 10 years experience manufacturing products in the outdoor living category and we continue to introduce new and innovative products year after year.

- Industry leader in product innovation
- We provide customers with products that let them enjoy both the outdoors & indoors.
- We create a work atmosphere that supports its employees & is a place that people are proud to be a part of.
- Outdoor living is a rapidly growing market and OGC is at the front of that.
- New products developed and manufactured in house.
- Leader in fire tables – more new products than any other manufacturer, year after year. In the last five years we have launched over 50 new products in the gas fire pit category.
- Over 40 years experience in the hearth industry
- UL listed products
- Simplified supply chain
- Custom products for any project
- Sell the complete outdoor experience – “the outdoor greatroom.”

- Faux Wood Logset optional accessory
- 90,000 BTU's
- Can convert to LP (DIY-LPK)
- Customer must buy separately - Block Adhesive- LOCTITE® - PL®500 Landscape Construction Adhesive or equivalent.
- Hudson Stone™ units provided by Anchor Block

automatic ignition

The CF-AI system is a direct spark ignition with flame sensing and automatic valve. The system is controlled by a module that sends a spark signal to the electrode (igniter), opens the gas valve and then the gas ignites. Once lit, the flame recognition senses the flame, and the electrode stops sparking. If the conditions are windy and the flame blows away from the sensor the system will try to reignite. If the burner is unable to reignite after 12 seconds, the system will enter safety shut down mode and close the gas supply to the burner. As with all Crystal Fire™ Burners, installation should be completed by a certified gas technician.

- CF-AI available to custom order on all Crystal Fire™ Burners
- 1 year warranty on ignition
- Limited Lifetime Warranty on stainless steel
- Direct spark ignition system with flame sensing
- Simple ON/OFF operation
- Crystal Fire™ Burners with automatic ignition can be purchased individually to be used for custom-built projects
- Glass guard recommended to enhance flame and performance
- UL listed when used with Crystal Fire™ Burners
- Can be color coated in 1 of 5 custom colors
- Includes control panel with ON/OFF switch
- Optional remote sold separately (A23 battery required)
- CF-AI comes set up to run on two D batteries but can be adapted for 110V
- Installation should be completed by a certified gas technician

Innovation at work.
