Old business:

- Dean Larson's buildings- The sheriff's office has sent Dean a citation for prosecution of violating the Nuisance ordinance. The next process is engaging the City Attorney for the next process.
- Mike Zinnel house will be burned this month.
- Working on Job description for Mowing and other small jobs for the city.

New Business:

- Meter Reader- Judy will talk to the salesman from Ferguson Tuesday with the meter information for repair or replacement.
- Rick had spoken to Tim Bengston, the Plumber about the water heater vent in the Community Center and he repaired it. He also spoke with Gordy Oslund about installing insulation in the community Center for about \$3000. It was suggested that maybe the money from the Game Feed be designated for the purpose. MSP by Henry and Nick to go ahead with the bid for insulation of the Community Center.
- Rick met with Rhonda and Steve Wynia about the construction of the house they will be building on their lot in Hadley. The question that has been presented is for the sewer line to tap into an existing one rather than digging up the whole lawn to get to it. Judy will get the application to the Wynia's for the building of their property. There are no objections by the council on the proposal from the Wynia's and the consult with their plumber.
- Park and Rec is working with MinnWest bank to secure their own tax id number. This has never been a city owned identity. The bank is taking care of this process.

- Nick brought up the all of the trees north of Henry's property that should be removed. The removal could be covered under the insurance claim for the tornado. Rick will ask Peschegas tree removal for a bid.
- Henry is asking about learning about resetting the power backup for the water when the power goes out.
-

MSP by Henry and Nick to pay bills

MSP by Bonnie and Henry to adjourn the meeting.
