Old Business:

- General Ordinance:
Rick has distributed a copy of the ordinance addressing some of the issues of concern. Also, Rick had distributed an informal letter to the residents for review. Bonnie will contact a couple of people that own skid loaders or grappling hooks to use with a hay rack to collect tree branches and burnable items.
Rick or Henry will burn the burn pile as soon as the conditions are correct.
- Back up heater for Pump house...Henry had no updates.
- Myron compensation – Bonnie made a motion to increase Myron’s wages by \$137.50 per month as compensation for the insurance change that occurred in January. Dale 2nd the motion. (Retroactive to January).
- Debt service schedule: There was much discussion about changing the debt service to the taxes rather than monthly. However, the consensus was to not making any changes at this time.

New Business:

- New Meter for the campground- antennae was not working
- Website – Judy addressed with John Draper.
- The focus for the water drainage should be the ditch remedy (which occurred). If there is an issue further with hard rains, then the City will have to contact the homeowner again to adjust the driveway(s) or alley again. The council members will monitor it and see what will occur through out the summer.
- Ask Bob to not mow towards the infield but towards the outfield. Maybe try to not blow the grass on the streets.
- Lowville Township – paid \$1260 – to December 2016.
