## Education: Understanding Your Choices

(NAPSI)—For many families, few things are more important than schooling—and an increasing number are taking it into their own hands.

They're welcoming the idea of more ways for children to be educated than simply by going to the district school. In schools, online, at home, with a tutor or through a combination, families use school choice options to meet each child's particular educational needs.

Families that can afford it may move to a desired school district. But there are many more ways to choose the best educational setting for your kids.

Here's a look at a few of the more popular:

**1. Education Savings Accounts (ESAs)** let parents withdraw their children from public schools and get public funds paid into government-authorized savings accounts—often via secure debit card—to cover private school tuition, online learning, private tutoring, higher education expenses, and other approved services and materials.

**2. School Vouchers** let parents choose a private school using all or part of the public money set aside for their children's education. Funds typically expended by a school district are allocated to the family instead in the form of a voucher for tuition at private schools, including religious and nonreligious options.

**3. Magnet schools** are public schools offering specialized curricu-

*School choice lets parents pick the kind of education, such as charter schools, they want their kids to have.*

la and programs. They're designed to attract students with a common interest or skill set, and students must apply and be accepted.

**4. Charter schools** are independently run public schools exempt from many rules and regulations in exchange for increased accountability. Typically, if charters get more applications than they have open seats, they accept students based on a lottery. Families don't need to use ESAs, vouchers or tax-credit scholarships for charter schools because they're publicly funded. Charter schools put families in charge of choosing their child's education, principals in charge of running their schools, and teachers in charge of leading their classrooms. They also tend to have high standards for every student and give them the support they need to meet those standards.

According to a Columbia University study, charter schools provide:

• Increased Innovation. Charter schools have the independence

to try new forms of teaching and experiment with the best way to reach their students.

• Increased Efficiency. Charter schools avoid myriad challenging government regulations.

• Greater Accountability. Charter schools must attract students to succeed, or their charter can be taken away.

• Increased Competition. Like other choice schools, charter schools must compete for families as customers. This is an ultimate form of accountability.

• Private Resources. Many charter schools have attracted considerable philanthropic gifts to support more robust programs.

5. Other types of school choice include homeschooling, online learning, and tax-credit scholarships that let taxpayers—individuals or businesses—get full or partial tax credits when they donate to nonprofits

## A Solider's Thoughts

by Charlie Bischoff

### In honor of Joshua Snapp

Thinking about those who paid the ultimate sacrifice and It's hard not to feel guilty.

Last night while having dinner with my wife and daughter we talked about how I couldn't wait to take Macee to her first baseball game tomorrow. Immediately I was overtaken with emotions and saddened as I thought of the ones who didn't make it home and those who did make it home but ultimately lost their battle with unseen wounds of war. I know they would all want us to enjoy today that in doing so we would honor their sacrifice, the ultimate sacrifice.

I wrote this years back and posted it last year.

You wake up to an annoying alarm  
I wake up to a rotor wash, planes, loud booms & or sirens.  
You sit in traffic & bitch cause you're running late.  
I sit in traffic scanning my surrounding anticipating an explosion.  
You eat at a chain restaurant or order food to be delivered.  
I eat a MRE in a guard tower.  
You work from 8-5 and complain about being tired.  
I'm on call 24/7 and my normal day is 8 hours longer than yours.  
You sit at the table with your family for dinner.  
I eat with my brothers in arms & think about home.  
You watch tv with your family on the couch.  
I sit on a computer/phone asking what my family is watching.  
You kiss your loved ones goodnight and cuddle for warmth.  
I say goodnight & ILU over a phone as I lay down in my cot & dream about the day I get to experience your every day.  
I do this because I volunteered to do so, so that you, my family wouldn't have to experience what I have, WAR.

## NEW 2019 RELEASE ★ 99.9% PURE SILVER ★ WORLDWIDE DEMAND

It's here! The U.S. Mint's newly released, much-anticipated 2019 American Eagle Silver Dollar. Each new-for-2019 coin contains ONE Troy ounce of 99.9% pure silver. As legal tender silver bullion coins, they are backed by the U. S. Government, assuring their content, purity, and intrinsic value. Now by acting fast, you can acquire this world-wide collector-favorite silver bullion coin for just \$49.99\*! That's quite a value versus the regular price of \$99.99 (plus \$9.99 shipping and service, plus sales tax). Sculptor Adolph A. Weinman's beloved Walking Liberty imagery adorns the obverse, while the reverse bears John Mercanti's heraldic eagle. In previous years, the U.S. Mint actually ran out of these coins for a while ... and it could happen again. This could be your only chance to claim the 2019 edition of America's bullion treasure in Brilliant Uncirculated condition at this special price, so act now!
