A Silent / Conversation

Sharing The Joy
Poetry By Cheryl Murph

John and Sara had been married for about two years. They had struggled through the first year getting to know one another's likes, dislikes accomplishments and fears. The new had now worn off and their true selves had become perfectly clear. They had learned how they both react when an argument comes up between the two. Sara like most women wanted to talk and she wanted to be heard. On the other hand John would clam up and do the silent treatment for days and never say a word. Sara's emotions would grow and she wanted to talk so bad But John's attitude of not even speaking only made her more frustrated and mad. One escapes the drama by going to bed and going to sleep. The other one worries, tosses and turns all night. Each one believing they are right. The question to this solution is who is willing to give in and make a mends? A true apology that comes from the heart and wants this disagreement to end. Our pride for a man or woman can be so demanding. An argument can become a game of tug-o-war just to see which one is left standing. I know in my relationship with God when I feel distant from him, I am always the one to blame. His unconditional love and compassion for me is always the same. I pray in time to become more like him and show someone some love when they deserve it the least from me. Then I will know how much I have grown in Christ and how much closer I am to thee. Mark 10:2

Remember til our paths cross again, Philippians 4:4-10

ADVANCED HEARING AID TECHNOLOGY

"I was amazed! Sounds I hadn't heard in years came back to me!"
— Don W., Sherman, TX

For Less Than \$200 MDHearingAid

How can a hearing aid that costs less than \$200 be every bit as good as one that sells for \$2,250 or more?

The answer: Although tremendous strides have been made in Advanced Hearing Aid Technology, those cost reductions have not been passed on to you. Until now...

MDHearingAid uses the same kind of Advanced Hearing Aid Technology incorporated into hearing aids that cost thousands more at a small fraction of the price.

Over 300,000 satisfied **MDHearingAid** customers agree: High-quality, FDA-registered hearing aids don't have to cost a fortune. The fact is, you don't need to spend thousands for a hearing aid. **MDHearingAid** is a medical-grade hearing aid offering sophistication and high performance, and works right out of the box with no time-consuming "adjustment" appointments. You can contact a licensed hearing specialist conveniently online or by phone — even after your purchase at no cost. No other company provides such extensive support. Now that you know...why pay more?

Can a Hearing Aid Delay or Prevent Alzheimer's and Dementia?

A study by the National Institute on Aging suggests older individuals with hearing loss are significantly more likely to develop Alzheimer's and dementia over time than those who retain their hearing. They suggest that an intervention — such as a hearing aid — could delay or prevent this by improving hearing!

TAKE ADVANTAGE OF OUR 45-DAY RISK-FREE TRIAL!

Hearing is believing and we invite you to try this nearly invisible hearing aid with no annoying whistling or background noise for yourself. If you are not completely satisfied with your MDHearingAid, return it within 45 days for a **FULL REFUND**.
