USDC Contract address 0x8ac76a51cc950d9822d68b83fe1ad97b32cd580d

One other very important thing: anyone can create any token in any name (ex: USDC, ETH etc.). You need to be very careful on checking if you are using the official USDC. There can be many tokens in the name of USDC (even you can create one) please add the original USDC to your wallet using its original contract address: USDC address

Bridge Address: as the Bridge only allows you to transfer a minimum of \$390 USDC ...so a mistake can be costly

(Use metamask to convert bsc to USDC)

Or buy litecoin in coinbase

Send litecoin to Coinomi

Swap Ltc for bnb in Coinomi

Send bnb to trust wallet

Swap bnb for smart chain stores in trust wallet

Send bsc to metamask to buy mag
