

We believe as a Social Worker, or Nurse Navigator, you would know firsthand the emotional, psychological and physical needs of a woman in active treatment or living with Metastatic Breast Cancer.

Sisters R Us Circle of Survivors would like to introduce our Pampering the Patient Project designed to give women in active treatment or living with a diagnosis of metastatic breast cancer a pampering day of in between treatment.

Please nominate a woman by completing the nomination form, then let the nominee know and we will do the rest.

Please return your nomination form via mail to:
