

INTRODUCTION TO AW20 FANTASIE LINGERIE

A NATURAL BALANCE

Our refreshed IT'S WHO I AM positioning has influenced AW20's textured, natural backdrop and warm lighting, which nods to the Fantasie woman's interest in current trends concerned with living a more balanced life.

DESIGNER'S NOTES

Ana returns for AW20, a beautiful timeless collection combining comfort and style, and now available in not just one colour, but three – Black, White and Natural Beige. With an array of floral designs on offer, there is something to capture the heart of every Fantasie woman. Carena's botanical print uses soft shades on an ivory ground for a lighter look, while Emmie captures autumnal flowers in bloom in a soft palette of delicate pastels against a muted green ground. Rest assured that AW20 sees the return of best-selling Illusion too.
